

**Free CPD for schools delivered in either half a day or two twilight sessions.**

- ✓ Get the support you need to build a sustainable relationship with a link school.
- ✓ Equip yourself to tackle global themes in the classroom and to develop the relevant skills and outlooks in young people
- ✓ Submit evidence of your school's commitment to international work and gain recognition for your school.

*Choose from the following four courses to help you to explore ways of enhancing your international work and education for global citizenship in your school and classroom. The activities draw on the experiences of schools working with international partners to share the powerful learning experiences that can result.*

**Introduction to International Learning**

This course explores the principles, educational benefits and practicalities of international learning and global citizenship. By the end of this course you will have:

- started to consider the benefits and challenges of working with schools in other countries
- started to explore ways that global citizenship can enhance learning
- started to explore intercultural practice
- considered how to prepare for international learning

**Deeper Understanding of Global Citizenship**

This course supports teachers in further developing their understanding of global citizenship and its practice and explores:

- The relevance of global citizenship for young people in their schools compared with the views of teachers from around the world
- Themes and ideas for global citizenship and international practice
- Best practise teaching techniques which support the development of global citizenship through international practice.

## CONNECTING CLASSROOMS

### Intercultural Practice

This course supports intercultural fluency. By the end of this course you will be able to:

- question and interrogate your own cultural preferences, values and beliefs
- have a sense of other belief and value systems being just as coherent and meaningful as your own
- anticipate and adapt to the conventions and beliefs of others
- respond in positive ways when your core values and beliefs are tested by belief and value systems different to your own.

### Our Partnership Journey

This course aims to support you in developing your partnership relationship, so that it realises its potential and results in lasting impact. By the end of the course you will have:

- explored the factors that help or hinder the development of a mature, equitable partnership relationship
- identified practical ways of planning and managing a school partnership
- identified ways of maximising involvement across the school and wider community
- explored the next step for your partnership

### Accredited Course leaders: Hilaire Agnama/Kathryn Hull

Connecting Classrooms is a British Council managed global education programme working in over 50 countries that offers school partnerships, professional development courses, accreditation and the chance to share best practice with international counterparts. Links through Connecting Classrooms to schools in Sub-Saharan Africa and South Asia are funded in partnership with the UK Government through the Department for International Development.
