

15 minute COVID-19 Rapid Test Kits

Fedhealth has teamed up with **Anytime Covid Test, LLC** to provide agencies, businesses, schools, groups and individuals with an affordable test for **COVID-19 antibodies** that gives confidential results in **15 minutes or less** in the privacy of your workplace or home.

This **FDA Authorized** rapid test helps determine whether you have been exposed to the virus within the past 4 to 24 days. The rapid test cassette reliably identifies IgG and IgM **antibodies** specific to SARS-CoV-2 in a sample of **blood** drawn with a finger prick in **11 to 15 minutes**.

When you are ready to take the test you will interface directly with an online virtual clinic. In the event you test positive, a doctor will consult with you virtually at no additional charge.

Anytime Covid Test kit with 1 month of Telemedicine is normally **\$49.50** but is **< \$15** each (**group of 3 kits is \$44.55**) for a limited time!

Kits can be **purchased** in 3-pack sets so agencies, schools and business owners have them available for staff, students, customers or clients, and families have them on-hand for peace of mind.

Learn how to order COVID-19 rapid kits for your **workplace or home**. Plus ACT has an **Affiliate program** so groups and individuals can earn over **13%** of orders and it's **FREE** to join! **Sign up now**

And, if you (or others) are interested in **on-going full service telemedicine** for your family (or staff), **learn more here** or email **janet@fedhealth.net** or call **520.907.2153** to discuss your needs.
