Re: Ten West Link transmission project (L-21088A-19-0309-00185)

The Town of Quartzsite supports the alignment of the “Ten West Link” transmission project as proposed by DCR Transmission LLC in their application for a Certificate of Environmental Compatibility permit.

The Town relies heavily upon winter visitors and the tourism industry for economic development. Therefore, we’re naturally sensitive to any industrial development that potentially impacts those activities.

We were initially concerned with a route developed by the U.S. Bureau of Land Management that would have bisected the Town. However, since that route was removed from consideration, the Town is comfortable with the project.

DCR Transmission has pledged to work with the Town during construction to maximize job opportunities and tax revenue. They’ve also pledged to provide the Town Council and community soon. We look forward to ongoing communication and appreciate their willingness to work with us.

Thank you for the opportunity to comment on this important project.

Sincerely,

Jim Ferguson
Town Manager
