## **VTT Lead Technician Jeff Nowak Wins FuzeHub's "Millennials in Manufacturing" Award!**

### ***An Uplifting Bright Spot in Tough Times***

NEWARK, NEW YORK, June 19-V Technical Textiles, Inc., the world leader of RF Shielding and EMI Enclosure fabrication, is proud to announce that their Lead Technician, Jeff Nowak, has been recognized as a member of FuzeHub's "Millennials in Manufacturing Class of 2020". This program recognizes employees in New York State manufacturing companies with less than 500 employees who are 39 years of age or younger and play a vital role in the manufacture of the company's products. Jeff certainly meets all of those requirements. His job responsibilities include: planning and overseeing the assembly of VTT products from the time the order hits the production floor, through fabrication, testing, quality control, and getting the product shipped. He's also a great mentor to his team, leading by example, never expecting more from them than he does from himself. Jeff is one of the first people to arrive at V Technical Textiles, Inc. in the morning and the last to leave at night! Congratulations Jeff, we're very proud of you and all of our employees!! Keep up your great work!
