Professional Experience and Approach

Treatment and Philosophy

Effectively diagnose and treat individuals for a wide variety of chronic and acute conditions including orthopedic pain, pre-post surgery pain, migraines, gynecological issues, arthritis, fibromyalgia, depression, fatigue and stress. Extremely high success rate with digestive problems - Crohn's, IBS, diarrhea, constipation, and allergies.

Work in conjunction with Western Medicine to achieve integrated approach to health

- Create a safe, supportive, attentive atmosphere.
- Identify and address root of disease as well as treat symptoms.
- Employ integrated understanding of Western & Eastern medicine in the best interest of the patient and medical group.
- Validate and acknowledge client's efforts to achieve greater health.

Roles Played as Health Professional

- Provide appropriate narrative and follow-up reports to referring provider.
- Provide health education seminars for community and professional groups.
- Combine therapy modalities to encourage the most effective results.
