- Year round philanthropy and community outreach projects

## Who We Are About Us

Gurukul Learning Center has positively impacted the lives of children by nurturing and teaching many children throughout our community since 2015. Our center offers infant care through Pre-K. We are here to enrich the educational and emotional experience of your child's early years. We are not just about the ABCs of learning, but aim to instill honesty, respect, self-reliance, potential, self-esteem and self-discipline by offering a loving, safe, nurturing environment that promotes a love of learning. An early love of learning is what prepares our young children for a successful academic future.

**Our commitment at GLC is to continue to be a positive influence to our children, families and community.**

**Our enhanced safety standards and measures include:**

- Cleaning and disinfecting
- Healthy distancing
- Protecting others
- Practicing great hygiene
- Safe drop-off and pick-up

# GURUKUL LEARNING CENTER

*Let the Journey Begin!*

## Our Mission and Philosophy

Gurukul Learning Center's mission is to provide a childcare service in a safe, protective environment where children can learn, play and grow together in a healthy atmosphere. We strive to maintain quality by creating a nurturing, loving and educational environment.

Gurukul Learning Center is an enriching educational and emotional experience where the child can feel safe and at home. Our learning environment is not just the ABCs, but is also the learning of values. Children will learn the importance of honesty, respect, self-reliance, potential and self-discipline and the values of being dependable, loving, and sensitive to others through kindness, friendliness and fairness. Our goal is to develop the child's social-emotional, physical and intellectual growth by providing the best program possible. The classroom environment is designed to cultivate positive self-image, independence and interdependence.

### Old Space, Made New

Our newly renovated space offers more space than is required by EEC. The larger rooms allow for more choices in learning centers and provide an opportunity for indoor gross motor play on those rainy days or snow days we experience here in New England.

---

*“Refinished, large rooms, very colorful and welcoming!”*

---

At GLC we provide varied opportunities for learning with highly qualified teachers and up to date technology that prepares your child to be successful as they play, learn and grow.

We have created an environment that is in line with NAEYC and the new QRIS rating standards for EEC. With these two programs we are striving to continue to spread quality care and quality programming for your children. We are actively engaged in continuing to be part of these programs with every advance we make in environment, curriculum, teacher qualifications and much more.

*We encourage parent participation and visits via our "Open-door Policy"*

We encourage our parents/guardians to take an active role in our schools special enrichment programs. Schedule a visit, offer to read a story or share your career during our community helpers unit. You can even share your culture as we embark on our journey to other countries during our World Travel curriculum each month.

### Our Curriculum

Our proprietary curriculum is designed to meet the needs of all learning styles. Our teachers are offered resources that are adaptable, age appropriate and culturally appropriate. Our program offers a proprietary two year themed curriculum that can be adapted to all age groups. Therefore, our exclusive curriculum provides a wide range of learning opportunities by expanding on our own knowledge base and incorporating real world experience into the classroom. We reach out to the children, taking advantage of "teachable moments" and creating lessons based on the child's interests.
