Sidewall Stairs

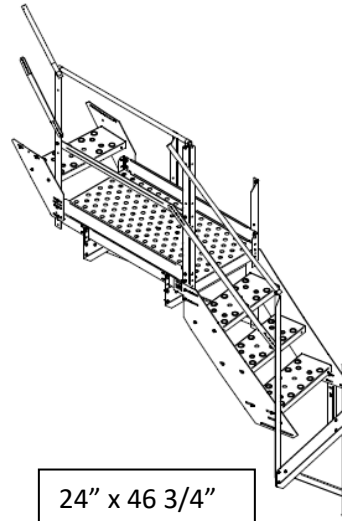

Easy Step Sidewall Stairs

ES4400 Stair Section and Bottom Section
Configuration Shown as Example

ES3500 Series Stair Top
Platform Package

ES3600 Series Intermediate
Platform Package

Ordering Information:

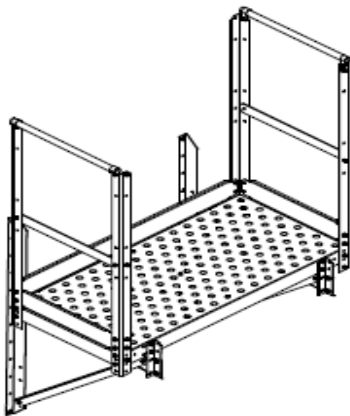

- *Easy Step stairs feature a 24" wide step that sits 7" from the bin wall.*
- *Easy Step sidewall stairs fit bins from 24' diameter to straight wall.*
- *For adjacent bins sharing one platform, space bin walls 38" apart, if using a twin platform space 64" apart. For larger spans refer to page 7 for the use of the Easy Step Filler Platform, ES3748.*
- *Easy Step Platform sits 12" below the eave.*
- *To calculate parts needed, order 1 Stair Platform with Stair Assembly (ES35xx) for the top ring of your bin, and 1 Stair Section for each remaining ring (ESxx00).*
- *To use an Intermediate Platform, substitute an Intermediate Platform and Stair Assembly for 1 Stair Section (ES36xx).*
- *Does not meet OSHA regulation 1910.25(C)(3)*

Original Sidewall Stairs

(Not for Commercial Use)

14400 Stair Section Example

38000 Ladder Platform, 38050 Platform Filler,
35000 Stair Platform

Ordering Information:

- Original Sidewall Stairs feature a 20" wide step that sits 6" from the bin wall.
- Original Sidewall Stair packages fit bins from 18' to 105' diameter and are not for commercial use.
- For adjacent bins sharing one platform, space bin walls 32" apart, and 54" if using a twin platform.
- On a standard bin, the stair sections used are determined by the height of the sheet. For a 32" bin sheet, use one 13200 per sheet. For the top two rings, the parts needed are determined by the desired location of the platform, using the chart below.

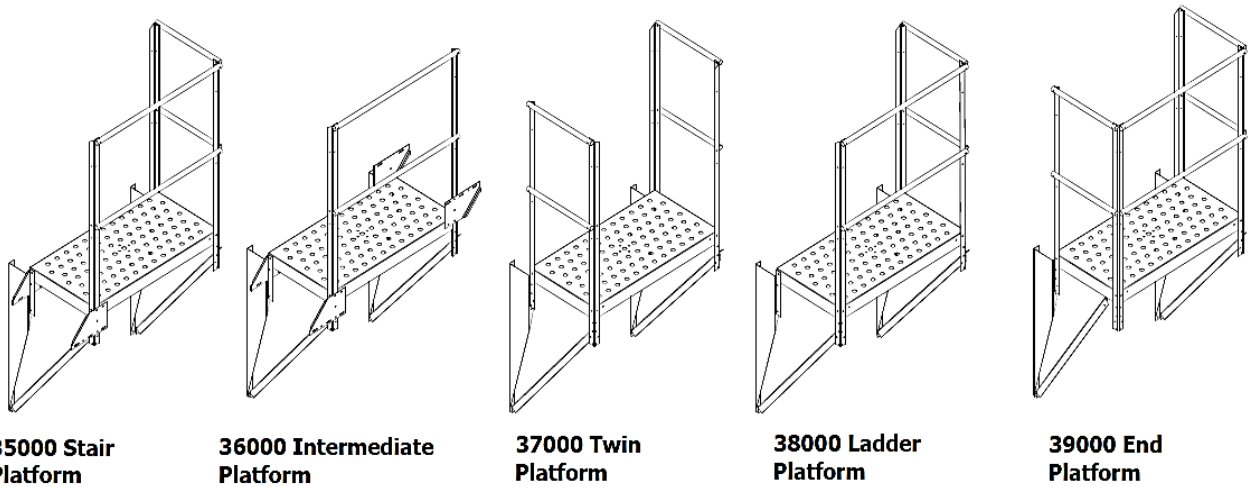

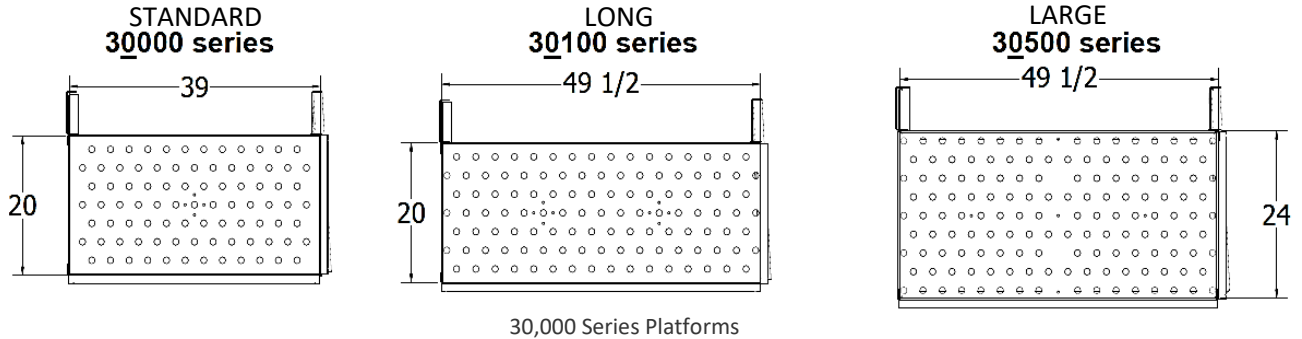

Height of rings	5 ½" below eave	16" below eave
44"	1-35000 Platform 1-13200 Section 1-14400 Section	1-35000 Platform 1-12100 Section 1-14400 Section
32"	1-35000 Platform 1-12100 Section 1-13200 Section	1-35000 Platform 1-14400 Section

Example: For an 8 ring bin with 32" sheets and a platform 16" below eave, use 1-35000 Platform, 1-14400 Stair Section, and 6-13200 Stair Sections.

Item	Description	List Price	Weight	Horizontal Travel	Bolt Spaces
12100	21" Stair Section	\$168.00	38 lbs	18 3/4"	2

Roof Packages

Easy Step Roof Ladder Handrail

Illustration depicts ES61100, ES61233, and 51450. **Items are sold individually.**

Ordering Information: Easy Step Roof Ladder handrail sections bolt to the ladder rungs attached on the bin roof between roof ribs. They come in two rung and three rung space lengths.

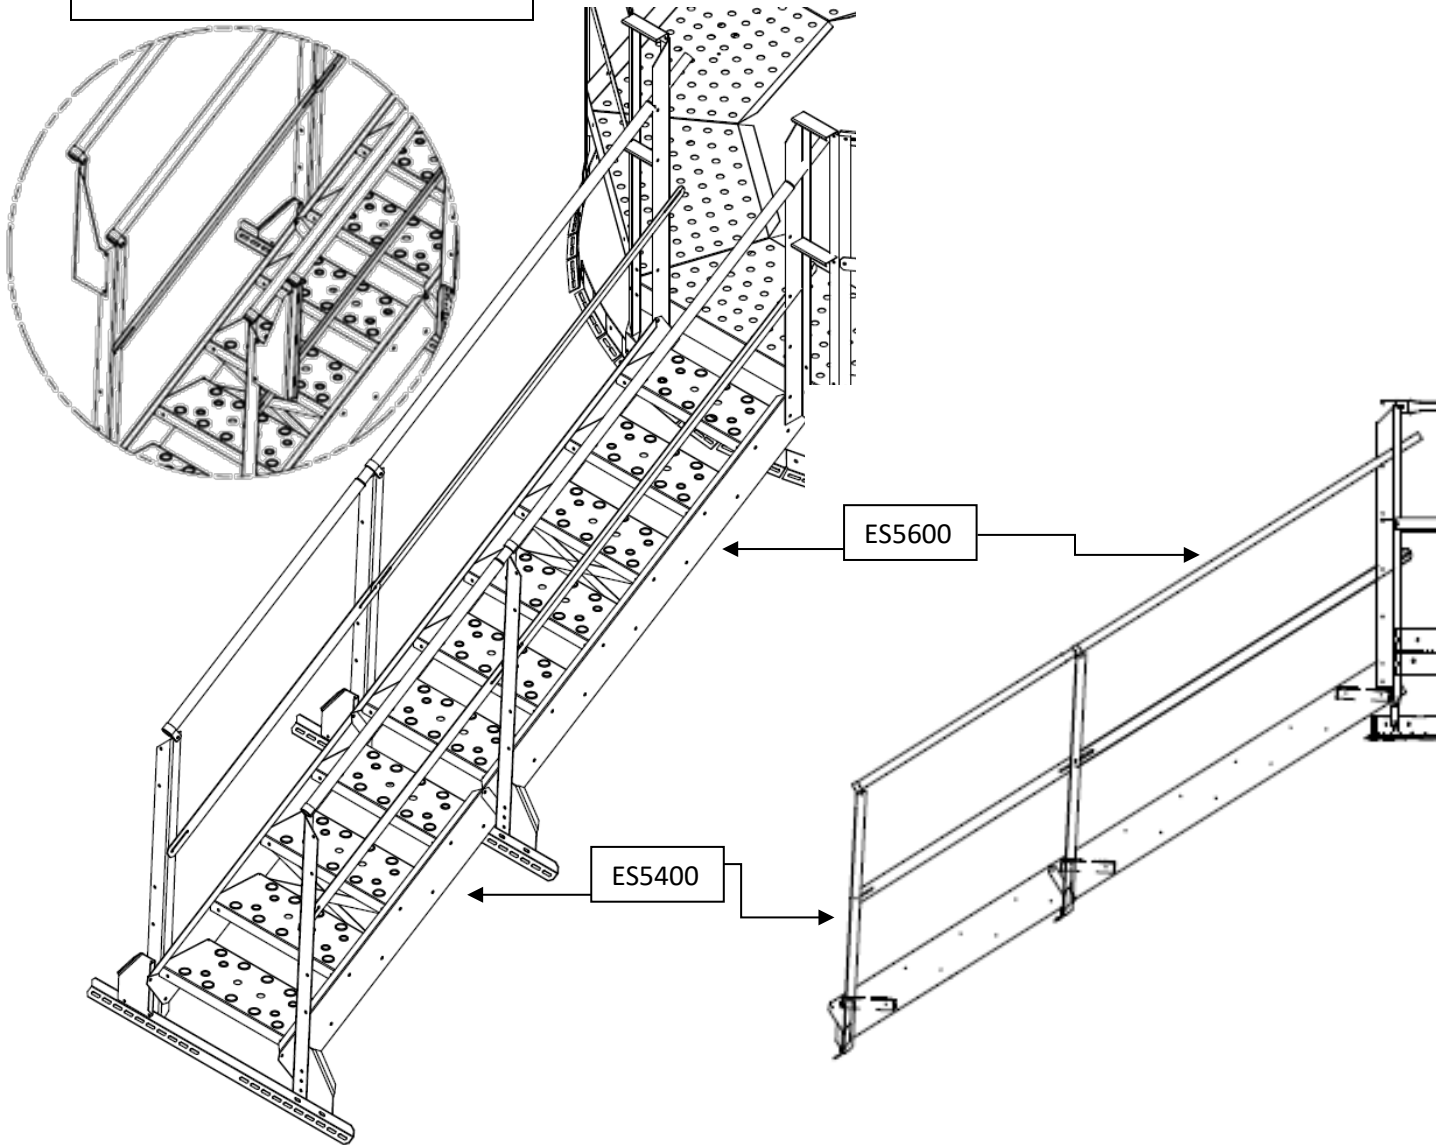

The Roof Ladder handrail packages are configured for use with the ES61100 or ES51100 peak package. If you are not using a peak safety package, order the next size larger roof ladder handrail package. The ES61500 Top Post Package is included in all Easy Step Roof Ladder Handrail bin packages.

Easy Step Peak Handrail

ES61100

Easy Step 10 Section Peak Handrail.

**When using with Easy Step
Roof Stairs or Easy Step Roof
Ladder Handrail order:**

ES60700: go up 1 size from bin
diameter

ES60900 & ES61100: use bin
diameter

ES61300: go down 1 size from
bin diameter

Item	Description	Inside Diameter	Outside Diameter	List Price	Weight
ES60700	Easy Step 7 Section Peak Handrail	81"	7'	\$616.00	110 lbs
ES60900	Easy Step 9 Section Peak Handrail NEW	105"	~9'	\$794.00	142 lbs
ES61100	Easy Step 10 Section Peak Handrail	117"	10'	\$873.00	155 lbs
ES61300	Easy Step 13 Section Peak Handrail	153"	13'	\$1,098.00	195 lbs
ES60100	Easy Step Single Section (adds 1' diameter to package)		+1' OD	\$89.00	16 lbs
ES60001	Easy Step Peak Handrail Entry Post Package			\$124.00	22 lbs

Easy Step Walkarounds

Illustration depicts ES51100, ES51124, and 51450. Items are sold individually.

ES51100 Easy Step Walkaround

Ordering Information: The length of stairs is calculated for an 11' top safety package.

ES5600 6 Step Roof Stair

ES5400 4 Step Roof Stair

51450 Manhole Guardrail

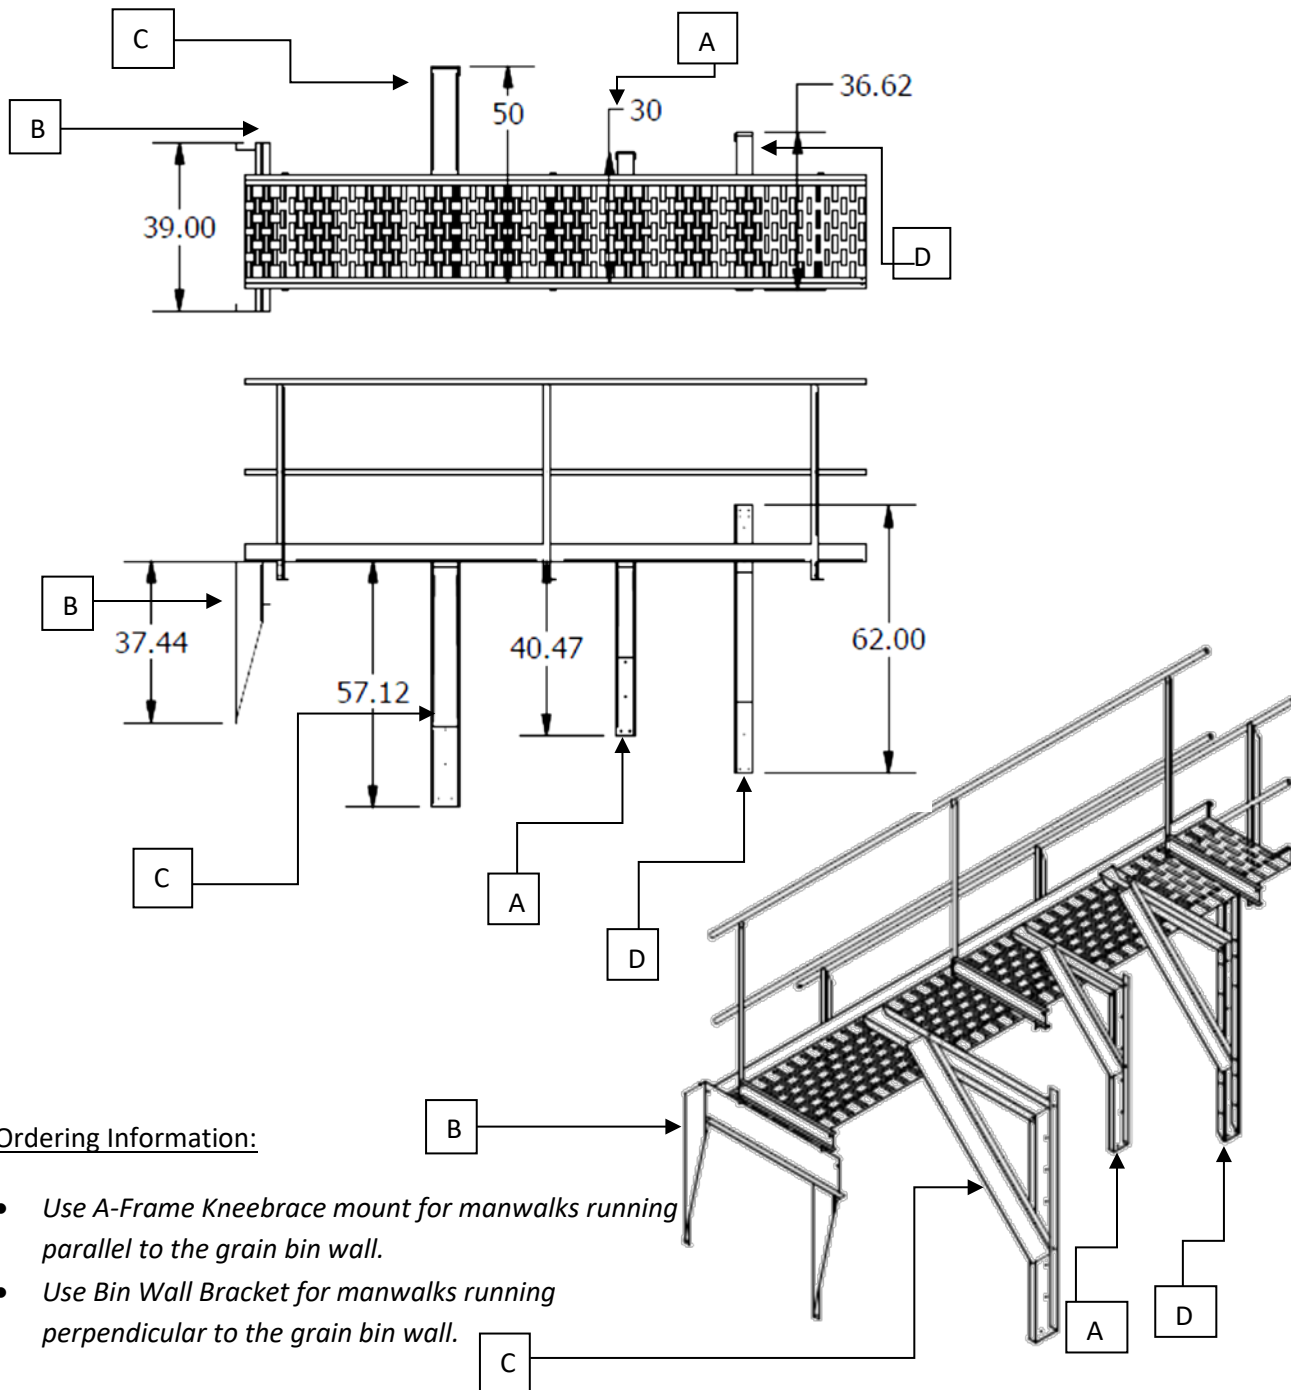

To determine the minimum walkaround size to allow space for the fill lid:

- Ensure the OUTSIDE DIAMETER is at least 3 times greater than the fill hole diameter.
- If a flat top bin, ensure the INSIDE DIAMETER is at least 3" greater than any peak bonnet or flashing.

Item	Description	List Price	Weight	Inside Diameter	Outside Diameter
ES50700	Easy Step 7' Walkaround AVAILABLE JAN. 1				
ES50900	Easy Step 9' Walkaround	\$1,498.00	271 lbs	65 1/8"	114 1/2"

Conveyor Support

Manwalk pitch should not exceed 20 degrees.

For steeper inclines, specify VP for Variable Pitch stair degree to 45 degrees.

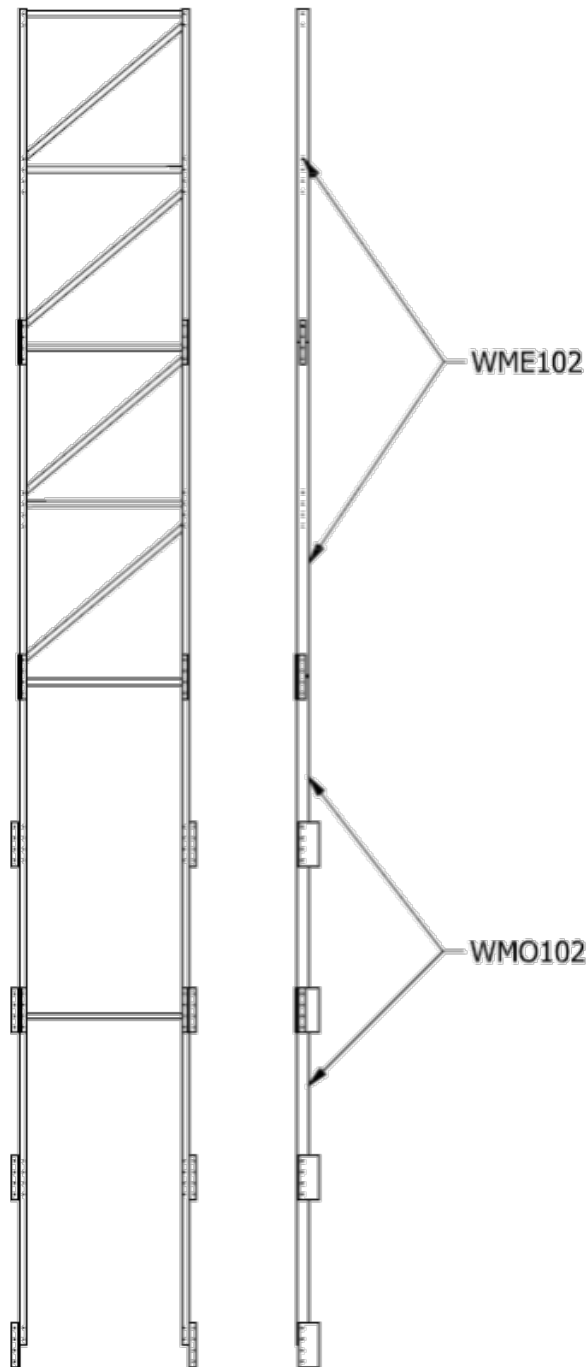

Example: 69420VP, or RS for Roof Stairs 35 degree i.e. 69420RS.

No extra charge for these options.

The Manwalk deck of the conveyor support consumes 26" of the width of the support.
48" Support has 22" of conveyor space, 42" has 16", 36" has 10", and 28" is for bridged Manwalk.
Allow 2" clearance from outside to kickboard on Manwalk.

WM3010	10' Wall Loop Kicker	\$1,613.00	390 lbs
WM3020	20' Wall Loop Kicker	\$3,221.00	778 lbs

MRH Roof Handrail

US Patent 8,595,990

How to Calculate Parts Needed for Mid-Roof Handrail:

Number of Sections: One Mid-Roof Handrail section (MRH001) for each foot of desired diameter.

Number of Roof Mounts: One Roof Mount (MRV_1) for each roof panel covered by the Mid-Roof Handrail.
Never more than 2 mounts per section of handrail.

Number of Entries: One entry section (MRHE01) for each instance that you need to pass through the Mid-Roof Handrail.

24" of roof run must be allowed outside of the handrail to allow for mounting hardware, and 36" off of the diameter.

Example: For example, if the handrail will be placed halfway down the roof of a 60' diameter bin, the handrail diameter (inside diameter) will be 30', so you would order Quantity 30 MRH001. If there are 60 roof panels at the Mid-Roof Handrail roof location, order Quantity 60 MRV_1. Indicate the bin manufacturer when ordering because the mounts are brand specific to correspond to the pre-punched roof rib holes. Typically, at least 1 entry section will be required for each system.

Please call for assistance with any configuration questions.

Item	Description	List Price	Weight
MRH001	Mid Roof Handrail	\$134.00	32 lbs
MRHE01	MRH Entry Section	\$259.00	56 lbs
MRVB1	Behlen Mount Foot	\$7.00	3 lbs
MRVC1	Chief Mount Foot	\$7.00	2 lbs
MRVS1	Sukup Mount Foot	\$7.00	3 lbs
MRVX1	Sioux Steel Mount Foot	\$7.00	3 lbs
MRVK1	Brock Mount Foot	\$7.00	3 lbs
MRVT1	Twister Mount Foot	\$7.00	3 lbs

Commercial Packages

Please call our commercial sales team before ordering any commercial products to ensure the products are configured properly to comply with applicable safety standards and are compatible with the structural rating of the bins.

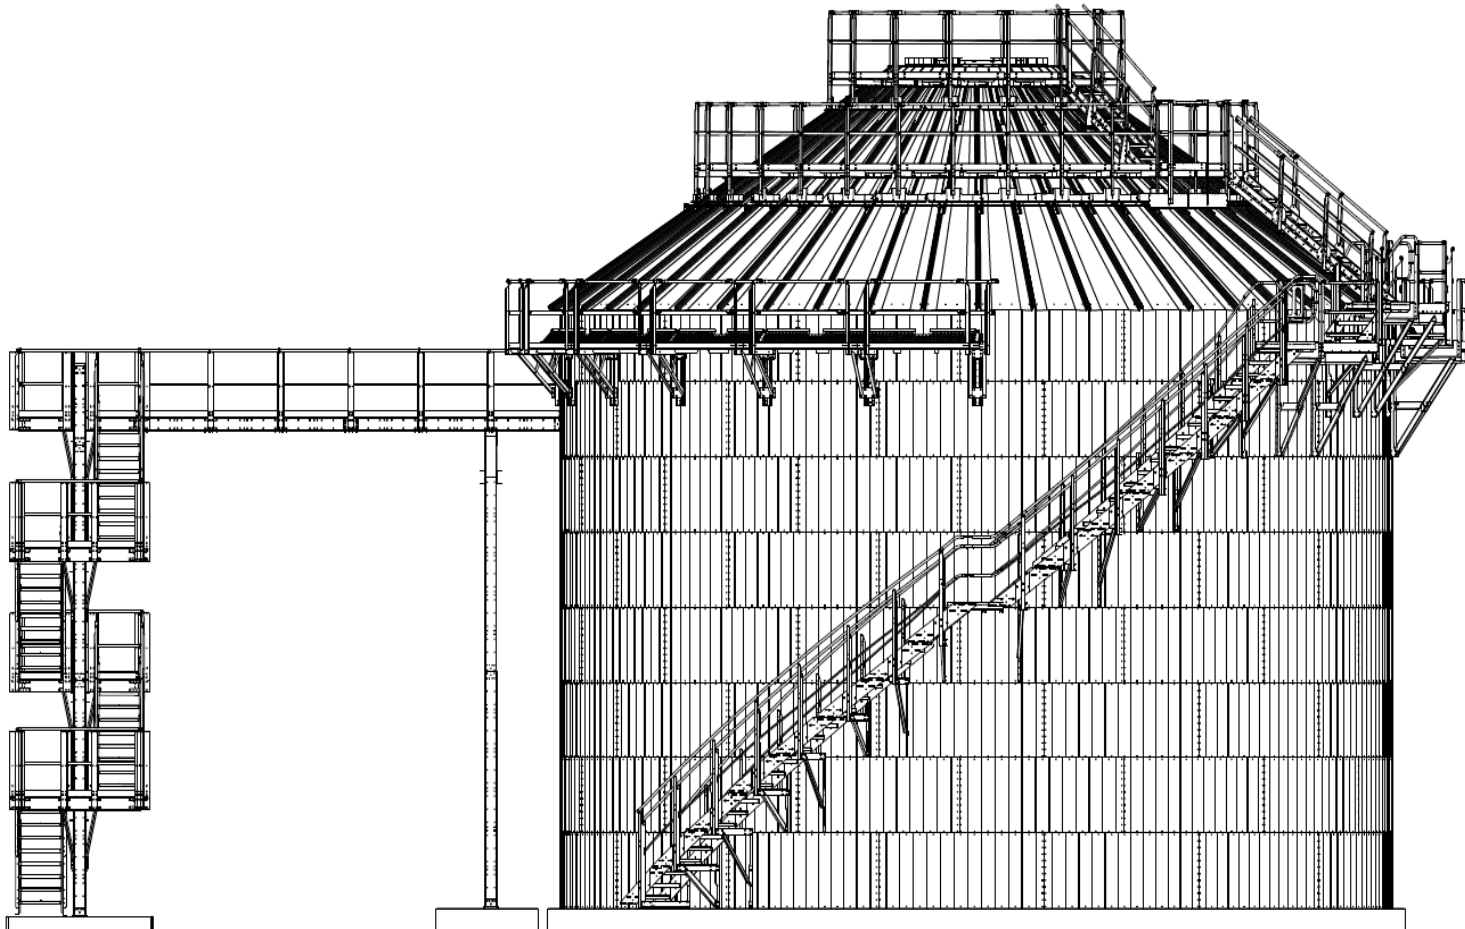

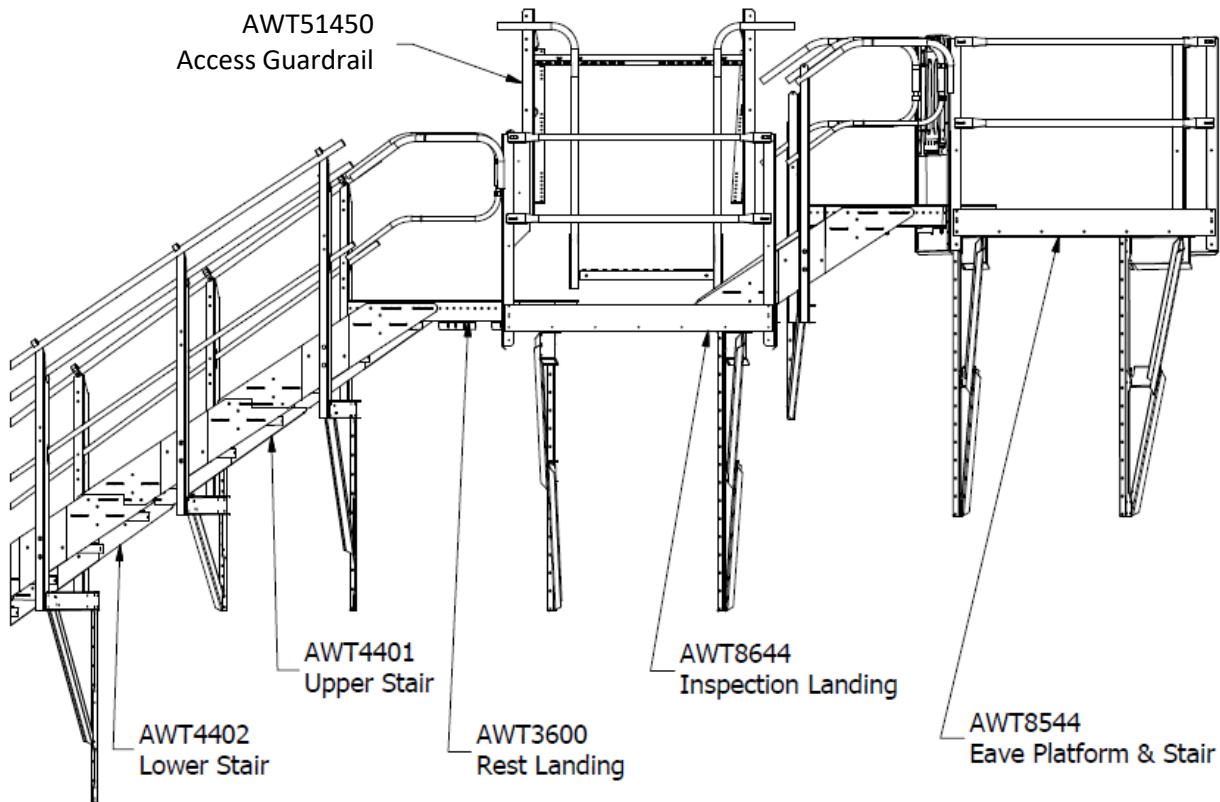

Illustration shows A-Series Tower Stairs, A-Series Manwalk, A-Series Sidewall Stairs, A-Series Roof Stairs, A-Series Roof Deck, and the A-Series Sidewall Deck (Eave Walkaround).

A-Series Sidewall Stairs

Call for Quote, Applicable Standards and Local Codes Determine Layout.

Not eligible for Early Order/ Pre-Pay Program

- Designed according to the following safety regulations (OSHA, ASAE, ANSI, NFPA, AS1657-2003)
- Rise between steps 44 - 7.3" 42 – 7.1"
- 1 ½" Round Handrail with telescopic joints
- 11" x 30" step surface offers wide clearance
- Ample clearance from the bin wall to the wind rings
- Currently offered for standard 44" bin sheet and Chief 42" bin sheet. Designs are pending for the 45" bin sheet, 39" bin sheet, and the 32" and 42" bin sheets with a 2.66" corrugation.

ART5005 Intermediate Section

ART5005 Shown with End Rails From Entry Kit

- Variable Pitch Design from 30-45 degrees.
- 1 ½" Round Handrail with telescopic end.
- Adjustable mounting height allows for consistent step transition from lower platform to stairs.
- Compatible with A-Series Arrest Landings and A-Series Roof Decks for commercial applications.
- Allows for rest landings on the roof every 18 steps or whatever local standard may apply.

A-Series Roof Deck

Call for Quote, Applicable Standards and Local Codes Determine Layout.

Not eligible for Early Order/ Pre-Pay Program

- The A-Series Roof Deck is designed with simplified installation in mind and allows for stair transitions that are compliant with applicable standards for safety and reliability.
- Each section is equivalent to 1' of the outside deck diameter. Example: 48' outside diameter deck is 48 Sections of ARD2480.
- Available in 3 different sizes, ranging from 12' diameter up to a straight line deck, such as on a building roof.
- Designed for roof slopes from 30deg to 40deg.
- Arrest landings can be configured as required by local and regional safety standards to allow for rest landings in the run.
- Another benefit of the rest landings is the ability to change roof stair approach from the eave platform. An eave platform may be at 6 o'clock, but the best approach to the peak may be at 9 o'clock. The lower stair can approach the mid roof deck at 6 o'clock, walk around the deck to 9 o'clock, and proceed up the stairs to the peak of the bin.

Item	Description	List Price	Weight
ARD1236	A-Series Roof Deck 12-36' Diameter	\$235.00	75 lbs
ARD2480	A-Series Roof Deck 24-80' Diameter	\$235.00	75 lbs

ATS0008	Tower Stair Manwalk Support (Even)	\$1,263.00	316 lbs
ATS0009	Tower Stair Manwalk Support (Odd)	\$1,480.00	370 lbs
ATS0010	Support Tower Walkway Top Support	\$540.00	135 lbs

A-Series Sidewall Deck (Eave Walkaround)

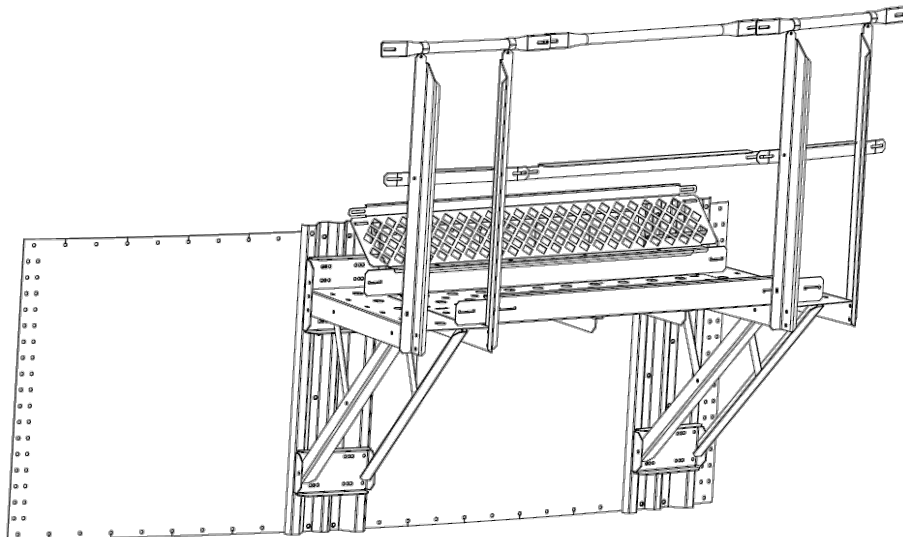

Call for Quote, Not eligible for Early Order/Pre-Pay Program

US Patent: 8,595,989

Drawing illustrates a 3 stiffened 132' bin with the skip a stiffener deck.

- The Sidewall Deck is available as a walkway option around the sidewall of an externally stiffened bin. It is attached by field drilling through the face of the stiffeners and attaching AWD001 mounting brackets.
- Bins with two stiffeners per sidewall panel require one mount and one deck section per stiffener.
- Bins with three stiffeners per sidewall panel below 30' in diameter require one mount and one deck section per stiffener. Three stiffened bins above 30' may utilize the skip a stiffener configuration where one mount and one deck are used for every other stiffener.
- The Sidewall Deck is load rated for 900 lbs.
- The ES8500 Series platform and ES7744 Transition Stairs are recommended for use at the manhole, roof stairs, and sidewall ladder or stairs.
- For unstiffened bins see pgs. 7 & 8 utilizing the ladder platform and platform fillers.

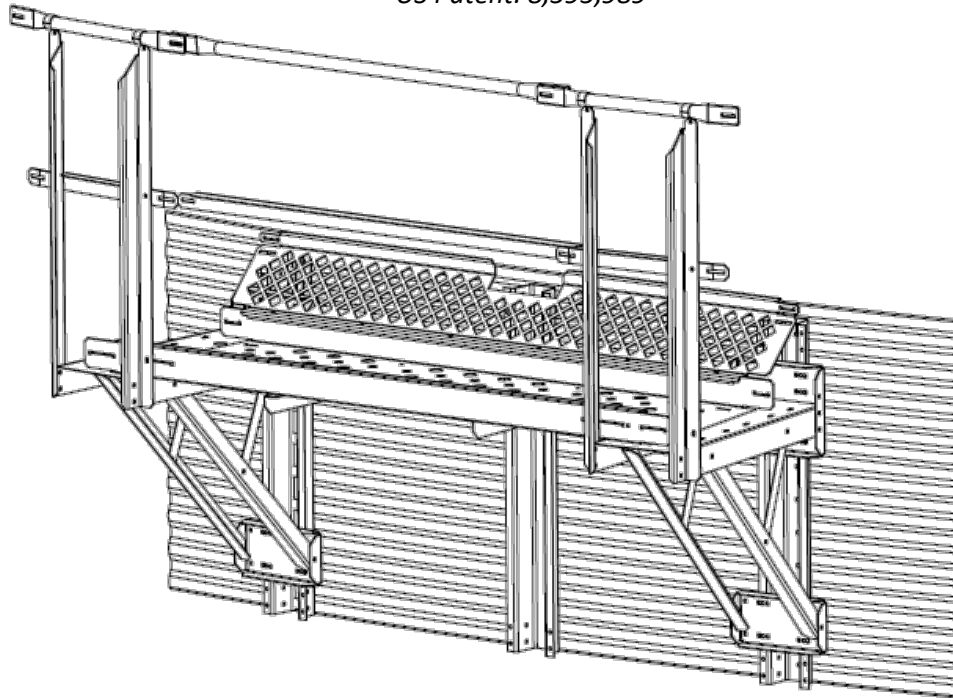

Drawing illustrates (1) AWD213 with (2) AWD001 Mounts

A-Series Sidewall Deck (Eave Walkaround)

Call for Quote, Not eligible for Early Order/Pre-Pay Program

US Patent: 8,595,989

Drawing illustrates (1) AWD302 with (2) AWD001 Mounts

Deck needed is determined by diameter of bin and number of stiffeners per bin sheet.
See page 36 for further explanation.
