

Shayan Lavoie - Rigging Slinger

Shayan started with A.F. Timber in the winter of 2015 after his friend Erik suggested coming on board.

Shayan loves the outdoors and when he is not on the hill working you can find him camping, or on the water boating. He also enjoys dirt biking, quading, and just driving up dirt roads in his truck.

In his words the best part of his job is that it is very rewarding; reflecting on the amount of wood piled up at the end of the day and what a great accomplishment it is. It is a hard job and he takes pride in knowing he is out there doing it every day!

Shayan notes that he really also likes hopping in the Hyundai 250 LC-7 Hoe Chucker whenever he gets the chance.

He loves the people he works with; it makes the job a lot more fun when you have people around you that always try to have a positive attitude and work very hard.

A fun fact about him is that he flew to Europe alone when he was just 8 years old. This characteristic contributes to the strong independent employee he is today . This strength transfers into his work ethic not just when he is logging but also in the community, volunteering for the Blewett Fire Department.

It is great to have Shayan as part of our A.F. Timber team.
