

## DIRECTORY AND REPOSITORY OF EDUCATIONAL ASSESSMENT MEASURES (DREAM)

MedEdPORTAL Publications, in partnership with Georgia Regents University, introduces the Directory and Repository of Educational Assessment Measures (DREAM) collection. DREAM is the “one-stop shop” for assessment measures used in health sciences education. DREAM features Critical Synthesis Packages that include an expert-authored and externally peer reviewed critical analysis of a non-proprietary assessment measure, a copy of the assessment tool itself, and supplementary materials that aid in administering the tool, such as a scoring guide.

DREAM Resources with 2 or more disciplines (Published to MedEdPORTAL and IPE PORTAL)
