

CHRIST STAR CONJUNCTION 2024

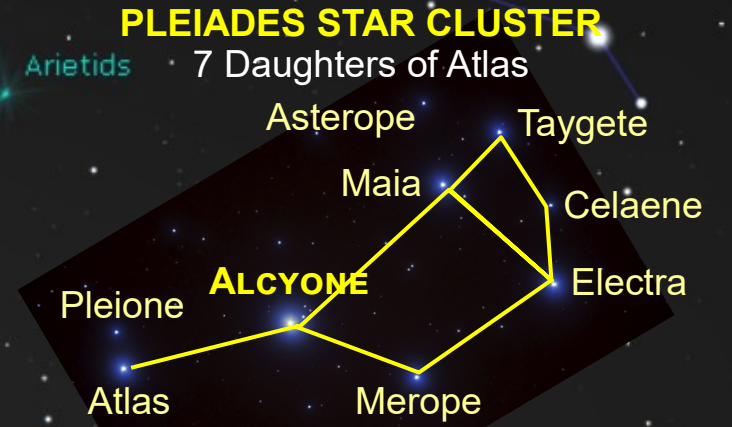

The purpose of this illustration is to depict the Christ Star Iteration for 2024. The Place and Time will be in the Constellation of Taurus on May 23, 2024. The 'Christ Star' is Understood to be the Planetary Conjunction of Jupiter with Venus. Jupiter is considered the King Planet. Venus is considered to be a Direct Inference to Jesus, per the Book of Revelation. The Original Christ Star occurred in the Constellation of Leo on August 11, -3 BC. It was 1 of 2 Christ Stars that Book-Ended the subsequent Triple Jupiter-Regulus Conjunction. Exactly 1 Month, on September 11, -3 BC, one surmises that it was the Day Jesus was Born. Thus, could this 2024 Christ Star be signaling a 1 Month Countdown to a 'Birthing'? If s, that Date would correspond to July 23, 2024 (723). This Date happens to be the Timing one is looking for a Rapture High Watch Timing. Note the Triangulation of the Christ Star with the Sun and the Pleiades. The Pleiades speaks of the 7-Fold Church Age and perhaps that is what the Christ Star is Singling, a 'Rescue' from the coming Judgment of the Fierce Judge, typified by the Constellation of Taurus.
