ш	Small flashlight and extra batteries		Sierra cup	
			Measuring/drinking cup	
			Spoon/utensils Water bottles (1-2 1-quart bottles)	
_		ш	vvaler bottles (1-2 1-quart bottles)	

## Special considerations:

- Cotton is bad, wool is good. Cotton retains moisture. Blue jeans and sweat pants are
  not advisable for winter camping, although dry sweat pants can be worn in the sleeping
  bag. Wicking synthetics such as Cool Max are now available for clothing next to skin.
  They wick moisture away from the skin and allow it to evaporate.
- Layering is important. One-piece snowmobile suits are good only when inactive and <u>not</u> recommended for winter campouts. Throughout the day boys will be active, and need to wear layers of clothing that can be added and removed.
- Putting clean, dry underwear on when going to bed is <u>crucial</u>. Boys will need to bring a spare pair of underwear and long underwear that they can change in to and wear while in their sleeping bags, as well as a pair of dry socks for sleeping. That night's underwear and socks can be worn the next day, as long as you have another dry set for the next night.
- Most heat is lost from the head. Bring a 2<sup>nd</sup> dry stocking cap for night, or a hooded sweatshirt, to keep head warm and out of the sleeping bag. For really cold weather a balaclava can cover your face while leaving mouth and nose open to breath without wetting the cloth. Do NOT breath into your sleeping bag – you will get wet and cold.
- Dehydration can help cause hypothermia. Drink 2-3 liters of water during the day. Storing your water bottle upside down in the snow (next to your tent where you can find it) will help prevent the lid from freezing on.
- Physical activity warms you up. If cold, move!
- We check on all boys all weekend.

Optional 1/20/06
