

PUBLIC PERFORMANCE BY STUDENTS

POLICY

Participation in school-sponsored programs, performances, contests, or similar activities will be consistent with the goals of the educational program or in accord with the policies of service to the general community.

Performing groups often need opportunities to appear before audiences and should accept invitations. Often affairs of the general community would seem incomplete without the participation of school groups. Accordingly, it is intended that school-sponsored groups may participate in community activities with the Superintendent's prior approval.

Board of Education

ADOPTED: September 30, 1982

REVISED: November 29, 2017
