

South Africa

“**Nelson Mandela** was on the U.S. **terrorist watch list until 2008** due to his leadership role in the African National Congress (ANC), which was labeled a **Terrorist Organization**

during the Cold War. This designation was largely influenced by the ANC's **shift to armed resistance** against apartheid and the political climate of the time.” Put simply kill all whites and take over South Africa.

You invited **Nelson Mandela** a black Communist Terrorists to speak to Congress on June 26, 1990. He left with millions to fund his mass murder of whites and take over the South Africa. **You did this America.**

You did the same thing with the Nazi Terrorist **Zelensky** and Ukraine that you set up.

Ronald Reagan saw **Mandela** as an enemy bent on spreading communism, and **Margaret Thatcher** said he had "a closed mind."

Gun Control

2018: “South Africa confiscated 300'000 guns from White Farmers after Constitutional Court ruled owners to relinquish weapons.”
