

ECLIPSE OF THE CROSS

CRUCIFIXION PLANETARY ALIGNMENTS

Death of the Lamb of YHVH

'From Noon until 3 in the Afternoon Darkness came over all the Land. About 3 in the Afternoon Jesus cried out in a Loud Voice, Eli, Eli, Lema Sabachthani? Which means, My GOD, My GOD, why have You Forsaken Me?' –Matthew 27:45-46

The purpose of this study is to show the Astronomical Alignments that happened during the Time Jesus was on the Cross of Calvary. The study will assume the following. Based on some Evidence and Celestial Patterns, Jesus was Born on September 11, -3 BC. The next Supposition is that Jesus was 33 years old but was Crucified on Passover, April 14, 32 AD. Given this Timeline, it appears that some peculiar Astronomical Alignments did occur during the Actual Day of the Crucifixion that this study will examine.

Based on prior studies of the Crucifixion, it is established that Golgotha or the Place of the Skull that is adjacent to the Garden Tomb was where Jesus was Crucified and the Correct Location, in one's Estimation. This area is just North of the Damascus Gate and outside the Ancient City Walls of Jerusalem. The prior studies have established that there is a Mathematical Relationship that incorporates the Phi Ratio Factor.

This Factor even Delineates the Degree of Time and Distance, of all things created as the Essence and Construct of all Things. Contrary to many HISTORICAL and Artistic Renditions of the Crucifixion, based on the work of Ron Wyatt, the Crucifixion Spot was between the Skull Façade that makes-up the Pinnacle of Mount Moriah and the Garden Tomb. The Crucifixion Spot was not atop the Skull Façade or just any arbitrary place but it was against the Rampart that makes-up the Pinnacle of Mount Moriah.

Mathematically, this Spot approximates the Phi Ratio Proportion of the Distances that made-up the 3 Points of the Crucifixion Events and Localities that Day. Other Phi Ratio Factors will be disclosed regarding the Celestial Alignment that was present during the Crucifixion as well. If in fact, it is the case that the actual Crucifixion Date was on Passover in April 14, 32 AD, what is unique to the other Contested Dates such as April 3, 33 AD is that there was a Planetary Alignment juxtaposed to the Cross of Calvary.

This is the case if one renders the Ecliptic to show all the Cardinal Points in the same illustrative frame. Many cite the fact that there was a Solar Eclipse on this Date. Not True. It was only a Partial Lunar Eclipse. It was a Partial one, but it occurred in the constellation of Libra, which was depicted in Ancient Times as an Altar of Sacrifice. However, it is impossible to have both a Solar and Lunar Eclipse on the same 24-Hour Cycle or the same Day. On April 14, 32 AD, the Solar Eclipse occurred at Mid-Day. The Blood Moon occurred at Mid-Night, as in Egypt which was the 1st Passover Commemoration. What are the odds of having the 2 types of Eclipses on April 14, 32 AD?

Passover Alignments

There had to be another Celestial Body involved and this is what this study suggests. This Passover Day Blood Moon was as it 1st occurred in Egypt and when the Hebrews were Evacuated or were taken-out as a type of the Rapture. Although the Blood Moon occurred at Midnight and in the Constellation of Libra, the Balances or more accurately the Altar as it was depicted the Ancient Mazzaroth, was not seen over Israel but descended below the Horizon. Pertaining to the Passover Planetary Alignment, if one were standing at the Foot of the Cross, facing North as Jesus was facing South.

And looked up at the Sky, the following is what one would have witnessed. This Scenario is assuming that from 12 Noon to 3pm, the Total Darkness covering the whole Earth was due to a Solar Eclipse. According to the Planetary Software Models, directly in line with the Cross of Jesus was a Planetary Alignment of Jupiter with Capella in the Constellation of Auriga, the Pierced Shepherd and Polaris, or the North Star in Ursa Minor.

If one studies Astronomy to any degree, the Elementary Knowledge will teach one that the North Star is from where all other Stars of the Known Universe Revolve. If one studies Jewish Eschatology related to Biblical Astronomy, one will realize that Jupiter is considered the Planet of the Messiah or the King Planet. The Ancient Jewish Name for Jupiter was Melchizedek or the King of Righteousness.

However, as with the Mazzaroth, the attributes of the Planets also have an Antithesis in terms of Esoteric and Luciferian meaning as well. As it pertains to Jupiter for example, in the Occult World, Jupiter is attributed to the AntiChrist, the Anti-Type of Jesus Christ, thus Lucifer, etc. The Star Capella in Auriga the Shepherd means the 'Pierced One'. This Astronomical Depiction is seen as the Horn of Taurus does 'Pierce' the Heel of the Shepherd Auriga. This speaks Prophetically of the Eternal Struggle and Battle of the 2 Seeds pitted against each other since in the Garden of Eden by YHVH.

This Disclosure to Mankind was in fact the 1st Biblical Prophecy given to Mankind, Genesis 3:15, the Proto-Evangelism or Gospel. What is rather interesting is that Jupiter, the King Planet happened to align on this Day with Jesus on the Cross and the Temple Mount in direct alignment by the 3pm Hour. It was at the Exact Time Jesus Died and the Passover Lamb was Slain. Jesus had been up all Night, after Celebrating the Passover with His Disciples in the Upper Room, Jesus was then Arrested and tried 7 Times in the Night.

After being sentenced to be Crucified by the Romans at the bequest and insisting on the Corrupt Elders of Zion, Jesus was Nailed to a Cross or 'Tree' in the midst of 2 other Males. The Center-Piece was believed to have been Reserved for the most Vile of Offenders of Rome and were made to be an Example. They were Tortured, Naked, and Exposed Publicly outside of Jerusalem. In essence, the Gate of Damascus served as the 'Crossroads of Humanity' as it was the Point in which the Trade Routes of the Ancient World and Continents converged.

Death of the Seed

If any Message was to have the Maximum Effect and Dissemination, this would have been the Place and Time. During any given Feast of which 3 were required Moedim of YHVH such as Passover, the Population of Jerusalem would have swelled-up to Hundreds of Thousands. Also consider that the Jews came from the 4 Corners of the then known world and spoke many Languages.

What is also interesting about the Jupiter Alignment to the Cross of Christ was that not only did it Accent the Crucifixion of the King of the Jews, the King of Righteousness but Jupiter was exactly in the midst of the 2 Horns of Taurus. According to the research of E.W. Bullinger, the Constellation Taurus represents the 'Wrath of the Judge' on one level but also the 'Beast' that sequestered 'Eve' as typified by the Pleiades 7 Stars.

The other unique aspect is Mathematical, in that the Distance at that Time, when Jesus Died on the Cross of Calvary was thus in Approximate Phi Ratio from the Distance of the actual Cross to the North Star, Polaris to the Star Capella in Auriga and to Jupiter in Taurus. Thus the 'Astronomical Tapestry' Accented this Section of the Story-Line of the Mazzaroth in that Jesus, Died, the King of Righteousness, as the North Star from which all Things, Seen and Unseen, Revolve around.

When the Phi Ratio Spiral, from the base of the Cross of Jesus is applied for illustrative emphases, and the Spiral's Fulcrum is set upon Polaris, the North Star, then the Terminal Point intersected Jupiter and then ultimately makes a Ley-Lines to the Pleiades. Jesus at the Cross was Pierced as the Good Shepherd, Auriga that laid His life down for the Sheep, His People Israel but not only those but that of the whole World. It was at the Cross of Calvary that Jesus took the full Wrath of the 'Beast' Taurus as YHVH required to redeem Adam's Fallen Race, as a Man.

This Cosmological Correspondence is attributed to the Redeemer, Jesus as the Groom, Redeeming His Bride, the 'Pleiades' bound by the 'Wrath of YHVH', and subject to Lucifer's Domain that was, is and is to come, etc. Another interesting Observation about this particular Time and Place of Jesus's Crucifixion, was that the Sun was in the constellation of Aries, the Ram-Goat. Nothing would seem Significant about this position of the Sun as it is in this House or Sign every Springtime.

However, what was unique on this Day was the following. First, if one took the Angle of the Sun to the base of the Cross of Calvary, where Jesus was suspended between Earth and Heaven, literally the angle was at a 33° Arc from the Skull Façade. If one also took this same Angle and Juxtaposed it Symmetrically from the Skull Façade, the Angle directly aligned itself to Saturn in Cancer.

This Arc of Degrees from the Skull Façade also was in Direct Alignment, vertically to the Star of Draco, Thuban. This Star is from where the Great Pyramid of Giza has one of the Cardinal Shafts aligned to. Furthermore, the Crucifixion Site was at Street Level, more or less and in-between the Skull Façade and the Garden Tomb. If one looked up just over the Ledge of the rocky Wall, directly in front of the Crucifixion

Array of Celestial Bodies

Spot that had edged on its Ledge the 3 Signs of Jesus' Offense or 'Crime', one would see the Constellation Draco, just crest above the Mount Moriah. It is the Literal Fulfilment of Genesis 3:15. It was as if Lucifer was 'Falling'. This Depiction was that of Draco in an upside-down depiction as it was sitting behind the Pinnacle of Mount Moriah towards the North. This has ECHOES of the 'Sides of the North' that Lucifer wanted to Elevate his Throne above that of YHVH's in Heaven. What the Constellation also would have shown is the Foot of Hercules 'Crushing' the Head of the 'Dragon Serpent'.

This Celestial Depiction, Accented the Death of the Seeds. First, as Jesus Crushed the 'Head' of the Serpent at the Cross by using the same Instrument, the Power of Sin, Death. It was also at the Cross of Calvary that by the same Death of Jesus, Lucifer did 'Die' as well but not before striking at the Heel of the Seed of the Woman. However, Jesus, as the Seed of Eve, Resurrected back from the State of Death, being in the Ground or the Garden Tomb.

Jesus taught with Parables in that, 'Except a Seed falls to the Ground and Die, it cannot bear Fruit. The Crucifixion of Jesus caused Him to be like that Seed that Died and went into the Earth, And it was Watered with His Blood. The Result? Eternal Life and People becoming Saved as 'Fruit'. It also Sealed the Doom and Defeat and ultimate Destruction of Lucifer. In Ancient Folklore, that even pre-dates the Creation of Adam and Eve, there is said to be the 'Gods of Atlantis' on Earth.

Saturn was even considered a 'Sun' and associated with the Watchers, as in the Fallen Angels and Lucifer, etc. Although all these Astronomical Depictions occurred on this Day and Time, normally such Alignments would not have been able to be seen, except for the Noon-Day Solar Eclipse. However, the Court Astrologers of the Royal Palaces of the then known World Empires would have known, as would the Evil Elders of Zion that had usurped the Sanhedrin or the Seat of Moses.

In fact, such a Secret Society within the ranks or the Luciferian Ruling Class 'Elite' are known as the Sons of Jupiter in fact. As to the Planets during the Day of Jesus' Crucifixion? In all, there were 7 Celestial Bodies present that made-up the array of the Signs. It has to do with the Astronomical Storyline of the Mazzaroth. Out of the 7 Celestial Bodies, 6 can be verified by the latest and amazing Software Models and the Ancient Peoples could have only dreamt about using. The 6 Celestial Bodies that fanned the Crucifixion Site from the East to West that day were the following. The 7th Body was Planet X.

<i>Planet</i>	<i>In Constellation</i>
1. Uranus	Leo
2. Saturn	Cancer
3. Jupiter	Taurus
4. (Planet X)?	Aries
5. Sun	Aries
6. Venus	Cetus
7. Mercury	Pisces

Cosmic Serpent

Another amazing Observation pertaining to the Array of the Planetary Bodies on the supposed Day of Jesus' Death is how the 7 Bodies on the Ecliptic suggests a 'Menorah' Pattern. There are 3 Bodies to the Left of Planet X and 3 Bodies to the Right. What this study is suggesting is that astonishingly, the Arrangement approximates the order of the Solar System with 2 exceptions. It is assumed the Earth is omitted as that is the point of reference. The Sun replaced Mars as the Planet and the 'God of War'.

This would make Theological Sense, as Christ Jesus came to bring Peace and make Peace with YHVH. More astonishing, the Atonement of Jesus' Death as the King of Righteousness, as 'Jupiter' provides through His Blood Atonement the amazing and Divine Aspect to have the Peace of GOD. Notice that Uranus was by Regulus, the Giant Blue Star that is known as the Heart of the Lion.

What is also spectacular is that Uranus is in Leo; a very rare Conjunction. Uranus means the Heavens. Since 32 AD, including the Conjunction of Uranus within Leo, there have only been 12 occurrences of such an Alignment. Does the 12 signify the 12 Tribes of Israel? The Planetary Alignments and those on the Ecliptic at the Time of the Crucifixion displays the approximate Spectrum of Visible Light. How so?

The Planet's Colors are based on their Resonance or Frequency as it then approximates the Color of the Rainbow. The Sign of Noah was YHVH's Promise not to ever Destroy the Earth by Water again. But it is the Planet X that takes the Servant Stem position, as Jesus did on the Cross of Calvary. This Ecliptic Planetary Array was a 'Celestial Rainbow' in full view.

What this study suggests is that what made this particular Day unique and the Sign of Aries stand-out among all the other Passovers consists of 2 Factors. One Factor deals with the amazing account that there appeared to be a Total Solar Eclipse for 3 Hours during the Crucifixion of Jesus. This occurred according to the Gospel Accounts from 12 Noon to 3pm. Jesus was placed on the Cross though from 9am to 3pm.

As no 'Normal' Solar Eclipse can last Mathematically more than approximately just over 7 Minutes, there has been much Speculation as to what could have caused this Phenomenon. Some Speculate that it was a Miraculous Solar Eclipse, others believe it was a 'Severe Storm'. What is telling according to the Gospel Accounts is that a Great Earthquake accompanied this Darkness covered the entire Land, but the entire Globe. It has been proven Scientifically that at times, the Planetary Alignment of various Celestial Bodies do affect the Gravitational Force Field of Earth.

And this in turn triggers Earthquakes as pressure from the Tectonic Plates shifts. And as the Earth's Core is also heated-up, etc. So, what caused the Eclipse? This study agrees with the work of Gil Broussard. His Models strongly suggest that a Heavenly Body 7 Times the size of Jupiter Eclipsed the Sun during the Crucifixion of Jesus, Planet X or more accurately, Nemesis. Broussard proved Mathematically that such a size of a Celestial Body would have exactly Eclipsed the Sun for 3 Hours.

Thus, if this would have been the case, then there were indeed 7 Celestial Bodies spanning the Sky from the East to the West having Planet X, as the Key and Center Celestial Body in Direct Alignment, vertically to the Temple Mount, facing West. What this then further suggests pictorially, is that such an Array of Celestial Bodies composed a 'Celestial Menorah' or sorts. This is only to the Degree that the Planets, the Constellations and the Stars could have been seen for the 3 Hours of Darkness and specific Stars could have noted above the Stratosphere.

This study assumes that it would have been the case. This 'Celestial Menorah' would be in keeping with the Theological Understanding that Jesus is the Menorah. Jesus was and is 'The Light of the World'. Yet on this Day, the Giant Red Dwarf Sun that consumes Light, as a Metaphor for Lucifer, the Red Dragon snuffed-out the Light of the World. On Earth below, Jesus, as 'Jupiter' corresponded to the one Crucified between 2 Bodies.

As above, Jupiter was Juxtaposed between 2 Male Constellations in the Heavens, that of Orion and Auriga. If the Conjecture of the Research, from April 14, 32 AD Astronomical Alignments are Valid, then the Phenomenon of Planet X, the Red Dragon, Nemesis, etc., does exist. In fact, the Narrative of such a Celestial Motif has been Hijacked by the Luciferians. But it belongs to Jesus and He provided the Matrix of such a Celestial Correspondence in the LORD's Prayer.

It states, 'Your Kingdom come, your will be done, on Earth, as it is in Heaven'. It would also Corroborate the many Ancient, Recorded Accounts of such a 'Red Dragon' Celestial Body approaching Earth that coincided with Worldwide Catastrophes of varying Degrees. The Degree to which the Severity of the Flyby's affected Earth was determined by the Angle of Approach, etc.

What is also interesting is that based on this Angle, Planet X was approximately 33 Degrees from the Earth-Sun Alignment. Given the Scenario that indeed the 3-Hour Darkness was attributed to this Type of Solar Eclipse of the Sun by Nemesis, then the following can be conjectured based on the Angle and Alignment of the Planets.

If the Earth was seen from a Bird's Eye View of the Solar System as being the Vertical Axis in Alignment with the Sun, then this meant that the Nemesis Heavenly Body was in-between the Sun and the Earth. This would have and could only have produced the 3-Hour Solar Eclipse. Will such an Event Repeat? Will the Reappearance of Nemesis be the Variable that will likewise cause the Darkness of the coming Kingdom of the AntiChrist due the 6th Seal Judgment?

Also, this means that Nemesis would have been somewhere in the Planetary Orbital Planes of Venus and Mercury. Based on current Speculation and from Mathematical Models, it is believed that Nemesis, or the Red Dragon is coming from the South in a Clockwise Direction. In this possible Model, the Perihelion will be reached behind the Sun based on the Solar System Scope Model Software. Lastly, if one was present at the 3pm Hour when Jesus Died on the Cross of Calvary, what would the Night Sky look like?

From the Temple Mount, looked directly towards the West just above the Temple Proper, the 3pm Sacrifice has finished. The Passover Lamb was being slaughtered in the Darkness of the Solar Eclipse. The following would have been depicted in the Stars that the Eclipse would have allowed the Throng of the Multitudes to see in the Sky. The Planetary Alignment of Mercury, Venus, the Sun and Jupiter would have been at an exact Vertical Alignment. Moreover, the Distance from Mercury to Venus and the Sun would approximate the Phi Ratio of Distance between each other, which is amazing.

The Constellation just above the Pinnacle of the Temple was Pisces that perhaps suggested the Age of the Fish to come, which Encapsulated the Church Age. Next, if one drew a Line from the Holy of Holies to the Star Capella in Auriga, the 'Pierced Shepherd' and Symmetrically juxtaposed it, the corresponding Star was Alnitak.

This is the largest of the 3 Stars of the Belt of Orion and the Star that is always corresponding to the Great Pyramid of Giza. As with the Physical Crucifixion, Jesus was placed in-between 2 other Males, corresponding to Orion and Auriga. There are several layers of Biblical Significance as in 1 aspect, such as the duality and 2 Missions of Jesus. The 1st being the Suffering Servant, Messiah-ben-Joseph, Auriga.

The 2nd one, that of Orion, foretells the Messiah's 2nd Coming as the Conquering Warrior, Messiah-ben-David. That Mission will be to establish the Eternal Kingdom on Earth, as it is in Heaven. This Angle was approximately 72 Degrees which Echoes the Degree of Precession of the Equinox and other Sacred Numerical Association with Hidden Knowledge.

Specific to Israel, the Elders of Zion were 70 plus Moses and Aaron; the Sanhedrin of 72 Elders, etc. What is very Prominent is that the Sun was directly Aligned at that Hour Jesus Died as the 'Lamb of YHVH', just to the North at the very same Hour. To reiterate, as Jupiter was in-between the Horns of Taurus, that in itself in many other Astronomical Renditions suggests a 'Menorah' type of Prophetic Motif.

From the Torah, the Menorah was a Facsimile of an Almond Tree, thus Jupiter suspended in-between the Horns of Taurus signified the King of Righteousness, pierced or 'Nailed' to the 'Tree'; even so, the Cross of Calvary. However, a more prominent depiction of the Crucifixion, Astronomically is that those that knew how to read the Celestial Markers as the Elders did so too of the Sign placed for Jesus that became a Cypher, YHVH.

They knew that YHVH set the Sun, Moon, and the Stars for Times, Seasons and Signs. It would have been evident that on that Day, that it could have been like the Wise Men of Persia that could have correlated all the Astronomical Alignment to be seen in the Middle of the Day, even due to the Eclipse. It would be the Sign that the King of Righteousness, the Redeemer that had come would be 'Pierced' as a Shepherd to Die for the Sheep. That the Dragon came to take on the 'Knight' but instead the Hero Crushed the Head of the Dragon, and although the Shepherd King would Die, He would be raised back to Life.

Astronomically, this Crucifixion would 'Liberate' the 'Chained Woman', Andromeda and the Fish, Pisces that were bound by Cetus, the Sea Monster, Leviathan, i.e., Lucifer. As the Church Age closes, will there be such Astronomical Alignments leading-up to the Rapture of the Bride of Christ? Since the 1st Pentecost, the Church Body, the Bride of Christ specifically, has been in a State of Humiliation and Persecution.

Perhaps based on the Feast of YHVH and the Menorah pattern, if Jesus was indeed Born on the Feast of Trumpets or Rosh HaShanah, perhaps that is when He will return. The present 'Pentecostal Feast' Interim is just about over. It will conclude with the Rapture of the Bride of Christ. Thus, if the Indwelling of the Holy Spirit began at Pentecost, many speculate that the Church Age will end on one.

However it is the Pentecost in the Summer, of Acts 2. This study strongly would argue though, that the Church Age cannot crossover into the last 70th Week of Years to complete Daniel's Prophecy. And that the Matthew 24 Passage is addressed to Israel, the Covenant of Abraham's Physical Seed and Descendants, not the Spiritual Body of Christ Jesus. There is a unique condition of a Mysterious Dichotomy, primarily due to the Nation of Israel being reconstituted since 1948.

The question is, when will Nemesis come around again as it possibly did during the Crucifixion of Jesus and caused the Eclipse of the Cross? Many are convinced it is already on its way. With the Heating-Up of the Inner Cores not only of Earth but the entire Solar System Planets. Thus, the alarming rise in Earthquakes, Asteroids, Extreme Weather, and Volcanoes, etc.

ECLIPSE OF THE CROSS

ASTRONOMICAL PROPERTIES OF THE DEATH OF THE LAMB

The purpose of this illustration is to show the Astronomical Positioning that happened during the time Jesus was on the Cross of Calvary. If in fact it is the case that the actual Crucifixion Date was on Passover in April 14, 32 AD, what is unique to the other contested dates such as April 3, 33 AD is that there was a Planetary Alignment juxtaposed to the Cross. This is the case if one renders the Ecliptic to show all the Cardinal Points in the same illustrative frame. Many cite the fact that there was a Solar Eclipse at Noon and then a Lunar Eclipse Midnight. It occurred at the Ancient Altar of Libra. It was also a Blood Moon as in the case in Egypt where the 1st Passover commemoration started. However, a Solar Eclipse would be impossible to have happened both on the same day. Thus the Solar Eclipse was caused by another Celestial Body. Pertaining to the Passover Planetary Alignment, if one were standing at the foot of the Cross facing North as Jesus was facing South and looked up at the Sky, the following is what one would have witnessed. This scenario is assuming that from 12 noon to 3pm, the Total Darkness covering the whole Earth was due to this Eclipse.

The distance at that time when Jesus died on the Cross of Calvary was thus in approximate phi ratio from the distance of the actual Cross to the North Star Polaris to the star Nibiru Eclipse in Aries the Sacrificial Lamb. Thus the Astronomical Tapestry

accented this section of the Storyline of the Mazzaroth in that Jesus, the King of Righteousness, the Pierced Shepherd as the North Star from which all things seen and unseen revolve around.

The Jupiter Alignment to the cross not only did accentuate the crucifixion of the King of the Jews, the King of Righteousness but Jupiter was exactly in the midst of the 2 Horns of Taurus. Taurus represents the 'Wrath of the Judge' on one level but also the 'Beast' that sequestered Evak as typified by the Pleiades.

Ecliptic skewed to render the Cardinal Points.

JERUSALEM Mt. Moriah @ the Death of Jesus

This area is just north of the Damascus Gate and outside the Ancient City Walls of Jerusalem. The prior studies have established that there is a mathematical relationship that incorporates the phi ratio factor. This factor even delineates the degree of where and when the exact Crucifixion spot was situated and conversely where the Ark of the Covenant was hidden. This is according to the research of Ron Wyatt.

A Menorah of Planets
This illustration suggests that in the Biblical context and definition of the Planets during the day of Jesus's Crucifixion, in all there were 7 Celestial Bodies present that made-up the Astronomical Storyline that accompanied and accented the Crucifixion of Jesus that day. The planetary alignments and those on the Ecliptic at the time of the crucifixion displays the approximate Spectrum of Visible Light. The Planet's colors based on their Resonance or Frequency approximates the color of the Rainbow. Such as the Sign of Noah. Jupiter takes the position of the Servant whom Jesus.

Contrary to many historical and artistic renditions of the Crucifixion, the Crucifixion spot was between the Skull Façade that makes up the Pinnacle of Mount Moriah and the Garden Tomb. The Crucifixion spot was not atop the Skull Façade or just any arbitrary place but it was against the rampart that made-up the pinnacle of Mount Moriah. Mathematically this spot approximates the phi ratio proportion of the distances that made-up the 3 points of the Crucifixion events and localities that day.

GARDEN TOMB

Based on some celestial evidence and patterns, Jesus was born on September 11, -3 BC. The second supposition is that Jesus was 33 years old but was crucified on Passover, April 14, 32 AD. Given this timeline, it would correspond precisely then how Jesus was 33 in the year 32 AD. Based on prior studies of the Crucifixion, it is established that Golgotha or the Place of the Skull that is adjacent to the Garden Tomb was where Jesus was crucified and the correct location.

ECLIPSE OF THE CROSS

PROBABLE ASTRONOMICAL PROPERTIES OF THE ECLIPSE OF THE DRAGON

What is telling according to the Gospel accounts is that a Great Earthquake accompanied this Darkness over the entire Globe. It has been proven scientifically that at times, the Planetary Alignment of various Bodies do affect the Gravitational Force Field on Earth and in turn triggers Earthquakes as pressure from the Tectonic Plates shifts as the Heating Up of the earth's Core is also affected, etc. This study does agree with the work of Gil Broussard in that his models strongly suggest that a Heavenly Body 7 times the size of Jupiter eclipsed the Sun during the Crucifixion of Jesus, Planet X. Given the scenario that indeed the 3-Hour Darkness was attributed to the Solar Eclipse of the Sun by Nemesis, then the following can be conjectured based on the Angle and Alignment of the Planets as they were positioned on that day. For one, if the Earth was seen from a bird's eye view of the Solar System as being the Vertical Axis in Alignment with the Sun, then this means that the Nemesis Heavenly Body was in between the Sun and the Earth. This would have and could only have produced the 3-Hour Solar Eclipse.

April 14, 32 AD

1. Blood Moon: Mid-Day
2. Blood Moon: Mid-Night

Broussard proved Mathematically that the size of a Celestial Body would have exactly eclipsed the Sun for 3 hours. Thus, if this would have been the case, then there were indeed 7 Celestial Bodies spanning the sky from the East to the West having Planet X as the key and center Celestial Body in direct alignment vertically to the West of the Cross of Jesus. What this then further suggests pictorially is that such an array of Celestial Bodies composed a 'Celestial menorah' or sorts.

This is only to the degree that the Planets, the Constellations and the Stars could have been seen for the 3 Hours of Darkness and the Stars could have shown above the Stratosphere this Storyline. This illustration assumes that it would have been the case. This 'Celestial Menorah' would be in line with the theological understanding that as Planet X was the 'Center Star', it snuffed-out the Light of the World as that is what Giant Red Dwarf Stars do, they absorb Light.

On Earth below, Jupiter corresponded to the one crucified between 2 males. As above, Jupiter was juxtaposed between 2 male constellations in the heavens, that of Orion and Auriga. If the conjecture of the Planetary Array that day is valid, then the phenomenon of Planet X, the Red Dragon, Nemesis, etc., does exist.

A COMING DARKNESS

Will such a time approach the reappearance of Nemesis and be the variable that will likewise cause the Darkness of the coming Kingdom of the Antichrist due the 6th Seal Judgment? Also, this means that Nemesis would have been somewhere in the Planetary Orbital Planes of Venus and Mercury. Based on current speculation and from mathematical models it is believed that Planet X, that is the Red Dragon is coming from the south in a clockwise direction.

It would also corroborate the many ancient recorded accounts of such a Celestial Body approaching Earth that caused worldwide catastrophes of varying degrees. They did depend on the degree to which the severity of the Flybys. The effect on Earth was then determined on the Angle, the place of the Mini-Solar System that intersected with the Planetary Planes due to its Debris Trail and on which side of the Sun the Earth was on. What is also interesting is that based on this angle, the Planet Jupiter is approximately 33 degrees from the Earth-Sun alignment.

ECLIPSE OF THE CROSS

ASTRONOMICAL PROPERTIES OF THE DEATH OF THE LAMB OF YHWH

What is rather interesting is that *Jupiter*, the *King Planet* happened to align on this day with Jesus on the Cross and the Temple Mount in direct alignment by the 3pm hour. It was at the exact time Jesus died. Based on the Gospel accounts, Jesus after having been up all night. After celebrating the Passover with His Disciples in the Upper Room, Jesus was arrested and tried 7 times during the night. If one was present at the 3pm hour when Jesus died on the Cross of Calvary towards the north of the Temple Mount and look directly towards the west just above the Temple proper as the afternoon sacrifices of the Passover Lambs were being slaughtered in the darkness of the solar eclipse, the following would have been depicted in the stars: The planetary alignment of Mercury, Venus, the Sun and Jupiter would have been at an exact vertical alignment. Moreover, the distance from Mercury to Venus and the Sun would approximate the phi ratio of distances between each other, which is amazing.

The Constellations just shown above the Pinnacle of the Temple were Pisces that perhaps suggested the Age of the Fish to come that has encapsulated the Church Age. Next if one drew a line from the Holy of Holies to the Star Capella in Auriga, Pierced Shepherd and symmetrically juxtaposed it, the corresponding Star was Alnitak. This is the largest of the 3 Stars of the Belt of Orion and the Star that correspond to the Great Pyramid of Giza. It is a 'Clock'. Consequently, this angle is approximately 72 degrees which then echoes the degree of Precession of the Equinox and other Sacred Numerical Association with 'Hidden Knowledge'. What is very prominent is that the Sun is directly aligned at that hour. Jesus died as the Lamb of YHWH just to the Side of the North at the very same hour.

This Crucifixion would liberate the 'Chained Woman', Andromeda and the Fish that were bound by the Beast the Sea Monster, Leviathan, aka Lucifer. Throughout the Church Age, the Bride of Christ has likewise been in a State of Humiliation of sorts as Believers in Jesus as the Christ still lives in Mortal Bodies and a Fallen World. Will there be still such a Planetary Alignment that will correspond to the Rapture event where the 'Pisces' and the 'Andromedans' throughout the Church Age were liberated of the chains of Sin/World once and for all?

As to the Star Capella in Auriga the Shepherd, it means the 'Pierced One'. This Astronomical Depiction is seen as the Horn of Taurus does pierce the Head of the Shepherd, Auriga. This speaks prophetically of the Eternal Struggle and battle of the 2 Seeds pitted against each other since in the Garden of Eden by YHWH. This disclosure to Mankind was in fact the 1st Biblical Prophecy given to Mankind, Genesis 3:15, a Proto-Evangelism or Gospel.

ECLIPSE OF THE CROSS

ASTRONOMICAL PROPERTIES OF THE STRUGGLE OF THE SEEDS

The purpose of this illustration is to show the Astronomical Alignments that happened during the time Jesus was on the Cross of Calvary. If in fact it is the case that the actual Crucifixion date was on Passover in April 14, 32 AD, what is unique is that there was a Planetary Alignment juxtaposed to the Cross looking directly North in front of the site. This is the case if one looked just over Mount Moriah at High Noon when the 3-Hour Solar Eclipse occurred. This is the instance when the whole Earth was covered by Darkness. The Astronomical Sign was of Draco with the Foot of Hercules at its Head, as if to 'crush' it. This depiction is reminiscent of the Genesis 3:15 contention between the Seed of the Woman, which was and is Jesus and the Seed of the Serpent, Lucifer ultimately through the agent and host of the coming AntiChrist.

Jesus is the Seed of the Woman That crushed the Head of the Serpent. But the Serpent, Lucifer at the Cross of Calvary stung the Heel of Jesus. Ingeniously, Jesus foiled the 'Trap' set by Satan in that by the Power of Death, Jesus used Death to conquer Death.

The Crucifixion Rendition illustrated is based on the Archeological Research and work of Ryan Wyatt. This purported site is itself in phi ratio in terms of distance from the Garden Tomb and the Skull Façade.

According to Wyatt, the Term of Offense or 'Crime' of Jesus was also advertised on boards that were edged within the ledge of the pinnacle of Mount Moriah.

CRUCIFIXION OF JESUS

PROBABLE MATHEMATICAL PROPERTIES OF THE BLOOD ATONEMENT

The purpose of this illustration is to build upon the work of the late Ron Wyatt and his theory about the place and circumstances surrounding the Crucifixion of Jesus Christ. Specific to the Research or Ron Wyatt, this study suggests that if the stipulations are correct, then the following correlations are probable based on approximate mathematical measurements of distances primarily from the point of the supposed spot of the Crucifixion of Jesus Christ. According to Ron Wyatt's eye-witness account, he dug through to the Cave where the Ark of the Covenant was and the other Temple Furnishings were hid away before the Babylonians came and led Judah to the Captivity or 2nd Diaspora. Astonishing, Wyatt surmised that the Crucifixion Spot was directly upon some 40 feet. Moreover, during the Earthquake recorded in the Gospels, the Rocks rent to create a Ravine that lets the Blood of Jesus flow down to the very Mercy Seat of the Ark. The Jews are looking for a coming Messiah Figure that will allow them to build the 3rd Temple in time of 'Peace'. After the Diaspora in Babylon for 70 Years, it took a Cyrus type of Man to decree that Jerusalem be rebuilt. This facilitated later on the eventual contrition of the House of YHVH. There was actually a fall in the time that the return of the Exiles started to come back. The Walls were built 1st and eventually the 2nd Temple was then constructed. In the Last Days, will there be a repeat of this Prophetic-Historical Pattern. Since 1948, the Exiles from the Last Diaspora since 70 AD started to return to Israel and the Walls have been built up now. What remains is the construction of the 3rd Temple. Who will be this coming 'Cyrus Antioch' that will facilitate the decree? What could be 1 of the main catalysts that demand such a Temple? It will be either a War, then 1 such variable and element would be the revealing of the Ark of the Covenant.

This study suggests that the very Crucifixion of Jesus Christ was also fashioned according to Mathematical distances to include a phi ratio factor that correlated approximately to how far the Ark of the Covenant was in approximate distance from the exact Crucifixion Spot. Throughout the Bible, both Old and New Testament, there is a clear theological application of how Jesus or the Messiah is a type consisting to the many types and shadows of various elements presented. Most, if not all, involve Mathematical Coefficients even.

One such element is the Ark of the Covenant. For example in a brief Surmatation, the contents of the Ark had the Law Tablets, the Bread of Mana and the Staff of Aaron. They all speak of the broken Laws of YHVH that need Blood Atonement or that of a Covering. The Mana or Bread speaks of how Jesus said that He is the Bread of Life. And the Staff of Aaron that budded speaks that Jesus is not only the Branch or coming Messiah Reader but that He would be resurrected.

If the top of the Head of Jesus is the edge and the Feet of Jesus is one factor of the entire measurement, it is speculated based on the supposition of the Garden Tomb that the height of Jesus was about 5'11". What is also a contributing factor is that based on Wyatt's excavations, Jesus was apparently elevated on to a 4 foot Platform as to highlight this spot that was perhaps reserved for the most vile of Offenders and to be clearly seen of the city crowds just outside the Damascus Gate.

This study suggests that like the very site of the Crucifixion to the supposed Cave where the Ark of the Covenant was hidden is in phi ratio proportion of distance. If one takes the Height of Jesus to have been 5'11" based on the modification of the Garden Tomb, and then the 4 feet elevated Crucifixion Spot, then one can approximately the distance. Mathematically to conclude that indeed the Cave right below the Cross of Calvary where the Lamb of YHVH was sacrificed was approximately 40 Feet below.

40 feet
= 119 inches (9-11 code)
or
= 3.3 yards (33)
or
= 3.022 meters (322)

Did this event also record, as a 'Mathematical Signature' of the Month and Day of Jesus' Birth of September 11, -3 BC (9-11) and the age He would die on April 14, 32 AD? And having also a 322 degree heading from the Dome of the Tables on the Temple Mount that many believe is the place where the Ark of the Covenant rested in the Holy of Holies?

What is astonishing is that if the distance that is implied is extrapolated and elevated to a possibly Prophetic Significance, it speaks volumes of recurring Sacred Biblical Numbers and echoes the approximate dimension of the Ark of Noah.
