

Covid-19 School Plan for 2020-2021

(subject to change per Daniels County Health Department guidance and requirements)

Green	Yellow	Red
<ul style="list-style-type: none">- Green represents minimal to no threat of Covid-19 in our county and school.1. School is open as normal.2. Masks/Face Shields are optional and encouraged.3. Temperature checks will be required. (Students with a temperature over 100.4 or any sign of illness will be sent home.)4. We will be aware of social distancing and will minimize student groups to less than 50.5. Staff and students will practice proper hygiene, including using hand sanitizer and washing hands frequently.6. Hard surfaces will be disinfected with foggers when kids are not present.7. We will deep clean classrooms and bathrooms after each school day has ended.8. Gym/Weight room/Walking Track will be available to the public from 4:00-9:00 p.m. The reason for this is to limit personal contact the students and staff have throughout the day.	<ul style="list-style-type: none">- Yellow represents community spread of Covid-10. We, as a school, are advised by our health department to minimize the number of students we have in our building. In this case, we will offer a blended model in which we will have half the number of students in the building at one particular time, while the other half is distance learning.1. School will be open but will function on a blended model. Students will be required to participate through distance education when they are not in the building.2. Face coverings are required. Each student will be given a face covering to wear during school hours.3. Temperatures will be taken. Any students with 100.4 or higher will be sent home immediately or if any sign of illness is present.4. Band/Choir will be postponed and alternative assignments will be given.5. Staff and students will practice proper hygiene, including using hand sanitizer and washing hands frequently.6. Hard surfaces will be disinfected with foggers when kids are not present.7. We will deep clean classrooms and bathrooms after the school day has ended.8. Gym/Weight room/Walking Track will be closed to the public.	<ul style="list-style-type: none">- Red represents a staff member or student tested positive for Covid-19. We will be shut down immediately for a minimum of 48 hours and will not return to either yellow or green until instructed by our health department.1. Students will not be allowed in our building.2. Students will receive distance education.3. Scobey Schools will be closed until the health department allows us to return.

In the event we must move into the yellow or red phase, all families will be notified using the school's alerting system.

Procedures

- K-2 will attend five days a week regardless of the district being in green or yellow. The reason for this is because of their already small class size.
- There will be no open campus or honors study hall. We have made these changes due to temperature checking and limiting the contact our students could potentially have during the school day. We will revisit this issue before the second semester.
- Our main priority is to keep our students and staff safe. For this reason, all doors will be locked and finger print access will be turned off during school hours. All parents, guests, and community members will be required to check in at the front office. For entrance into the school, your temperature will be taken. If you have a temperature of 100.4 or above or are showing any symptoms of illness, you will not be allowed to enter the building. During any point of the year, if the school district moves to the “yellow” or “red” phase, the building will be closed to the public.
- The drop-off procedure for school will be as follows: K-3 will be screened and admitted into the building at the elementary doors. 4th-7th grade will be screened and must enter through the commons door. 8th-12th grade will be screened and must enter through the high school doors. All back doors will be locked. If a student’s temperature is at 100.4 or higher or shows any signs of illness, they will be required to put a mask/face shield on and will be sent home immediately. It is important we all do our part during this pandemic. For this reason, I ask that if your child is not feeling well, please keep them home.
- For student pick up, all students will exit out of the south side doors. We are asking that parents please wait outside of the building to pick up your student and maintain social distancing guidelines.
- In the case we have to move into the “yellow” phase, we will be using a blended school model. This will most likely indicate we are seeing community spread in Daniels County. Half of the student body will come to school every other day while masks/face shields will be required.

Each family will receive a letter detailing the in-class/distance learning rotation for their child/children.

Students in the same family will have the same rotation schedule.

- If we move into the “Red” phase, the school will be closed until the health department allows us to return to the building. During this time, our students will be receiving their education through distance learning.
