

CAPABILITY STATEMENT

CORE COMPETENCIES

REA Remedial Solutions, L.C. is a minority owned construction contractor providing small site development, site environmental remediation, engineering support and assessment services. We have developed a solid reputation for providing high-quality, responsive services to clients across the southeast. REA Remedial Solutions understands the regulatory, technical, and financial challenges our clients face today. We work to address these issues with an emphasis on cost savings, compliance, and added value. **Our specialty is mitigation of environmental impacts to construction.** Our unique abilities and licensing enable us to provide construction services in areas where contamination issues might delay the overall project schedule. Our personnel experience encompasses projects from handling contamination issues to allow the general contractor to complete their construction activities to total site development of large multi-family sites and communities. **REA Remedial Solutions stands ready to provide the full spectrum of site work and/or environmental remediation services tailored specifically for you.**
