---

This training will cover content for six courses of **Code.org** CS Fundamentals. You will receive an introduction to Computer Science, pedagogy, overview of the online curriculum, teacher dashboard, and strategies for teaching “**Unplugged**” classroom activities. Additional ideas and tools that can be used to get computer science up and running in any elementary classroom or school will be shared. Workshop attendees will receive a bag of **Code.org** swag and a printed curriculum guide containing course lesson plans.

---

## Agenda

- Getting to know Code.org/Curriculum Overview
- Graph Paper Programming – Unplugged Activity Model
- Course D – Plugged Activity Model
- Dashboard Walkthrough – Creating a class, enrolling students, choosing a course
- Networking
