and SELECT GROUPS OF COMMERCIAL BRED FEMALES

Genetics you should **EXPECT**
Service you **DESERVE.**

The Program

Unconditional first year guarantee!

The bulls selling Dec. 5, 2020, are the result of a cow herd where our breeding, culling and management are focused on creating exceptional cows not just adequate. The bulls are from mothers that are deep bodied, easy fleshing, have a sound udder and are structurally correct. The dams of the bulls must also have quiet dispositions and have tremendous maternal instincts.

Marketing two-year-old bulls is not common because it is not

easy. We own them longer than other outfits, allowing for more opportunity for any given bull to fail. We believe in this approach because our customers deserve a superior product.

Sturdy two-year-olds are bred and developed to cover more cows for more breeding seasons and leave you with exceptional replacement females and market-demanding steers.

It's ALL *Cows!* about the

Here at Pyramid Beef we want you to know that we live by that statement. The cow is at the forefront of all our breeding decisions. Whether we're selecting bulls to add performance or inject carcass traits, we do our due diligence to ensure that our breeding decisions will leave a positive influence on the mother cow. We demand cows that convert efficiently on grass, calve easily, breed back in a timely fashion and look good doing it! **Join us Dec. 5, 2020 at Frederickson Ranch and see for yourself.**
