

RFP Questions: Part 2

Section 4.3, Proposal Content indicates that the Respondent's submission should be comprised of two components: #1 - Narrative Proposal and #2 - Cost Proposal.

Question - Do you want both the Narrative Proposal and Cost Proposal submitted as a single document, with all required attachments at the end? Or, do you prefer to have them submitted as separately (i.e., the Narrative Proposal with required attachments as one packet and then the Cost Proposal as a separate packet?)

Please submit the Narrative Proposal and Cost Proposal as a single document with the required attachments at the end.
