

## Physical Education in the 2020-21 School Year: Recommendations and Resources

The Minnesota Department of Education has released guidance for [Physical Education in the 2020-21 School Year: Recommendations and Resources](#). This document identifies considerations for the fall based on three potential reopening scenarios in the fall:

- Students are back to school.
- Hybrid learning with strict social distancing and capacity limits
- Distance Learning Only

Because the Covid-19 situation is fluid, it's important to keep in mind that this is a living document and will be updated as we learn more about how to successfully serve our students through physical education programs. It was published at the same time as the reopening guidance from [SHAPE America](#). The document will be updated later this summer to include any additional relevant information.
