

Patriot Strapping

Basic Instructions

Always exercise caution when using tools of any kind. ***Make Safety Job 1!***

STEP 1: Position the tail/loose top strap through the the large center slot of the tool.

STEP 2: Rest the blade of the tool against the edge of the load, pinching the tail strap against the bottom strap. Pull the handle of the tool toward you to apply tension to the strap.

STEP 3: Pull the slack out of the tail strap and repeat step 2.

STEP 4: Repeat the process until you reach the desired tension.
