CITY FCU HELOC

Home Equity Loans allow you to access funds by using your home's equity. Your home's equity is the current market home value minus the outstanding balance of all liens on the property and can build over time as you make payments towards your mortgage balance or add value to your home. This type of loan is usually a "closed-end" loan term where we provide

you the funds upfront and you repay the loan for the specific term. When applying for a HELOC, you get a credit limit, and you can borrow up to that amount. As you pay your balance down, you can borrow again, similar to a credit card. These types of loans are often used for home renovations, debt consolidation, and any major ticket item.
