

December 3, 2019

To whom it may concern,

I am writing in regards to Craig Gray and his POPS sculpture that was selected as part of Sculpture Walk XII for the city of Kingsport's public art program. Selected by a guest curator, Mr. Gray's artwork has been a popular installation at our Farmers Market location and has been popular among the community. Mr. Gray, himself, has been a pleasure to work with as a public artist. Talented and experienced, we coordinated the place and time for installation, and he delivered and installed on time. Mr. Gray has his method of installation down to an art. He is a pleasure to work with, radiating positive energy and love for his work. We hope to work with him again.

Sincerely,

A handwritten signature in blue ink that reads 'Hannah M. Powell'.
