

The Heights at Porter Ranch
ARCHITECTURAL REVIEW COMMITTEE
APPLICATION FOR IMPROVEMENT

Address: _____

Please read each clause and initial next to each one:

_____ The preservation of the architectural character of your community is the responsibility of every homeowner. Every home will influence the aesthetic beauty of the entire community and the property value of all homes.

_____ The latest version of the Northridge Heights Community Association Architectural Standards and Guidelines is dated 20 November 2001 and should be reviewed thoroughly by each resident, but especially by any residents requesting changes to walls, fences, gates, patio structures, sunshades, trellises, gazebos, drainage, paved areas, lighting, plants, trees, adornments, ornaments, pools, spas, structural changes, exterior colors and finishes. The Architectural Standards are available on the community website at www.theheightsatporterranch.org.

_____ Neighbors' signatures are required for walls, fences, children's playground fixtures or anything (not including trees/bushes) exceeding fence/wall height. The Association does not guarantee a Homeowner's view.

_____ All exterior modifications, including landscape, hardscape and structural/architectural, must be approved by the Architectural Committee prior to commencing work. Failure to submit this completed Architectural Application before commencing work and failure to obtain the required signatures/approval before commencing work will result in a fine of \$100 or more.

_____ All three pages of this form and any blueprints, drawings, photos or paint swatches, must be submitted to the guard house at least one day prior to the monthly board meetings. Meetings are held at the board meeting each month. Please do not commence work until applications are reviewed and approved. NO RUSH REQUESTS.

_____ If this form is incomplete, or if any supporting documents are missing, the application will be rejected and the form will not be reviewed again until the following monthly board meeting.

_____ The decision to approve or reject applications is made by volunteer committee and board members with knowledge of architectural standards and guidelines for the community and may take up to 30 days, but will take longer if the form is incomplete or if supporting documents are missing. Approval or rejection emails will be mailed the Monday or Tuesday following each board meeting.

_____ Applicant must obtain and submit a City or County permit as required prior to commencing any work.

_____ Approval of any plan by the Committee does not waive the necessity of obtaining the required City and County permits. Obtaining a City or County permit does not waive the need for Committee approval. The Committee will not knowingly approve a plan that is in violation of the City or County building or zoning code. Approval of proposed plans by the Architectural Committee and/or Board does not constitute waiver of any requirements of applicable governing agencies.

_____ The Architectural Standards Committee may require paint samples be applied to the home before a decision is made on approval or disapproval of color.

_____ Contractors are required to follow community rules like stopping at stop signs and parking in accordance with traffic laws and owners are ultimately responsible for any violations and fines incurred for the actions of their guests.

_____ Work must be completed within 6 months of approval.
