DESCRIPTION: Here is a high-end hunting bow—the famed Wing Thunderbird “Black Beauty” in the shorter 54” model. From the Wing AMF era. Factory installed quiver bushings. Great looking and performing recurve. Black Wingwood (compressed hardwood) riser. Bow has no delamination; no cracks; limbs are straight. Tips and overlays are in good shape. The two top overlays on the lower limb tip were missing and I restored them as best I could (you can see the minor difference in the tip pic on the last page). No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decals are in good condition. There was a lot of crazing and worn varnish spots on the riser. So it was refinished. Overall, this is a really nice bow for its age.
