

CAMPING/OVERNIGHT RULES

Welcome to Gambel Field! We are glad you are here and want your experience to be as pleasant as possible. However, we must protect our interests in the property also. Please read and follow the listed rules below:

- 1) NO GLASS—We don't care what's in the container only that the container itself is not glass.
- 2) Do not drive on/park on the grass. The edge markers (orange pylons) are your guide, don't move them, squeeze between them or otherwise try to manipulate the rule. Event set up personnel/vehicles must check in with Jane.
- 3) Campfires – Allowed only on sand/dirt areas, NEVER on the grass. If it is windy, don't light a fire. If there is a County or State Burn Restriction in place, don't light a fire. You must be able to control or extinguish your fire at all times. If you don't have a way to put out a fire, don't light one.
- 4) Do not touch the irrigation pipe covers. Don't climb on, sit on, kick, wiggle, or lean against the irrigation pipes and or coverings. Damaged irrigation pipes = costly repairs charged to the damaging party.
- 5) Clean up after yourselves and your pets.
- 6) Noise carries out here at night. Please be courteous to each other and the community neighbors with your volume.
- 7) The raised area on the west side of the property, where the buildings are, is STRICKLY OFF LIMITS. This area is our private residence/homesite.
- 8) Dust is best controlled by controlling traffic speed. There is a MAXIMUM speed of 5 MPH. The land down the long side of the field is NOT a road! Be aware you are driving on dirt/sand. The faster you drive the more dust you have. SLOW DOWN.
- 9) Coyotes – yes you may hear or see them in the area. Please protect yourselves, your pets, and your food storage.
- 10) If you have any questions or concerns, please text or call Jane at 602-292-7196
