

2020 Private Event Information

Private Mushroom Walk

2 Hours - \$200 for 1 to 10 people.

\$10 for each additional person. There may be additional mileage charge.

I will bring books and materials as we walk in the woods (your land or a decided location) and talk about the fungi we find. This includes the fungi life cycle, their role in the environment, and identification characteristics. We will explore the culinary or medicinal value mushrooms have, historic uses, present day science, and the story they tell about the forest. Fungi are the unseen glue that binds all living things together. Find out more about the interconnection under our feet.

If you are interested, we can also focus on how to grow mushrooms indoors or outdoors. We can discuss a plan to cultivate mushrooms based on your time, resources, and goals. This is applicable and scalable for hobbyists or commercial production.

All events can be custom designed to meet the needs of your group.

Who should book a Mushroom Event?

Homesteaders, garden clubs, permaculturists, farmers, libraries, nature centers, home schoolers (special pricing available), land owners, birthday celebrators, festivals with speakers, holistic healers, DIYers, foodies, foragers, hobbyists, people that are looking to be inspired by the wonders of mushrooms.

John's Bio

John Michelotti is the founder of Catskill Fungi which empowers people through outdoor educational classes, cultivation courses, mushroom art, and mushroom health extracts. These extracts are created from mushrooms foraged and grown on and around his family farm in the Catskill Mountains. John is a past President of the Mid-Hudson Mycological Association (MHMA) where he co-founded the Catskill Regional Mycoflora Project as well as the Gary Lincoff Memorial Scholarship. He served on the Mushroom Advisory Panel for Certified Naturally Grown to develop ecological standards in mushroom production. John has presented at the New York Botanical Gardens, Telluride Mushroom Festival, & North America Mycological Association Annual Foray, as well as several colleges and universities. His goal is to educate and inspire people to pair with fungi to improve health, communities, and the environment.

Please contact John with questions and to reserve your Mushroom Walk or Workshop.
