

# May Corvid-19 Newsletter

**I hope the shutdown ends soon and everyone is staying healthy!**

## **What is Happening at the dojo?**

I am trying to keep a presents on facebook with techniques and ideas for practice. Student should look at these techniques on facebook and youtube for practice ideas. I have hired a cleaning company to do a deep cleaning and sanitize the walls, furniture, and floors. They are coming in this Friday and will come in again just before we open back up. I will have them come weekly after that. I have ordered a UV Light that has provine to help kill the virus on surfaces. We will clean all surfaces regularly. I will have hand sanitizer for students before and after class.

**Once we get back some things will change for a while.**

**1) Student will not wear full uniform.**

Karate T-Shirt, uniform bottoms, socks and a face mask. **NO Belts**  
Instructors will **not** be able to help kids with their belts.

**2) We will take each student temperature before class.**

Student that have a temp. will **not** be allowed in class.

**3) We will assign classes to each student.** No Drop in.

Only 6 students and one instructor will be allowed in the classes. Each student will be assigned a space. We will have fewer chairs in the lobby so when kids a coming and going they will not be close together. Parent will wait in their car for class to end. I will also control the student coming in to avoid crowding. I may have the student leave by the back door for pick up.

**4) Student must use hand sanitizer before and after class.**

I will provide hand sanitizer.

**5) We will do material without contact - we will work in the air and simulate techniques.**

Sincerely,  
Jim Alty, Soke
