Fence professionals:
Finally your prayers have been answered...

In an answer to numerous requests, we have created the most formidable hinge available in the vinyl fence industry today. Our **NEW** stainless steel *Illusions*® Extra Strong Hinge has been custom designed with the dual purpose of supporting the large sizes of *Illusions*® Vinyl Drive Gates while maintaining a beauty for use with *Illusions*® Vinyl Walk Gates.

At 15', it is almost double the size and weight of our standard vinyl hinge. The added leverage of the 10.5" arm creates a vastly increased load bearing capacity. With a simple adjustable nut and bolt design, getting gates level is a snap and installation is a breeze. **We know you will find many applications for this patented new hinge from *Illusions*® Vinyl Fence.**

EXTRA STRONG VS. STANDARD HINGE

- BIGGER
- STURDIER
- ESTATE GATES
- COMMERCIAL GATES
- MADE OF STAINLESS STEEL
