---

The District Boards will meet in a workshop session 5/27/98 at 3:30 p.m. at the Grand County Council Chambers. The items to be discussed are:

- 1) Interlocal Agreement creating the Spanish Valley Water & Sewer Service Agency
- 2) Spanish Valley Culinary Water System Upgrade

The Council has expressed reservations regarding both of these items. I believe that with further discussion and education on the District's reasons for pursuing these ideas the Council will have a better feel for what the Boards are recommending.

Your attendance at this meeting is important. The Council needs to hear from each of you and know your thoughts on these items.
