

New Face Mask Protocols

May 19, 2021

Dear Valued Member,

The health and safety of our members and staff is our top priority.

Beginning Wednesday May 19th, New York State has adopted the CDC's "Interim Public Health Recommendations for Fully Vaccinated People". Moving forward fully vaccinated members are now welcome to use our facilities mask-free. If you prefer to continue to wear your mask regardless of this transition, we encourage you to do so. We ask that if you are yet to receive your full COVID-19 vaccination that you continue to wear a mask while inside YMCA facilities and program areas.

Beginning May 19:

- Masks are no longer required for fully vaccinated* people.
- Immuno-compromised people should continue to wear a mask.
- Any individual who is not fully vaccinated* against COVID-19 must continue to wear a mask at all times while visiting the Y.
- All members, regardless of vaccination status, will need to answer health screening questions before entering the Y.
- Though there are no longer capacity limitations, members are still asked to maintain a social distance of six feet.
- Members still need to register in advance for all activities and classes at the Y.
- Please consider the health of our members and our community so that we may remain open and safe for all.

If you have any questions or concerns, please contact the YMCA at 315-789-1616. Thank you for your continued support of the Geneva Family YMCA.

**Per CDC guidelines, you are considered fully vaccinated when at least 2 weeks have passed since receipt of the second dose in a 2-dose series, or at least 2 weeks have passed since receipt of one dose of a single-dose vaccine.*
