March 2023 Update

Purvis Store

Our Volunteer Construction Team (referred to affectionately as "The Geezers") has been hard at work and I wanted to show you what they have done.

We received donations and had some other dollars left over, allowing us to rent the equipment needed and the supplies to shore up the building, cut off the rotting roof, and cover the structure with heavy duty tarps that were originally Billboards.

We then brought in another guy to scrape up all the debris and load it into a dumpster. We filled the dumpster and have another one coming so all the debris can be cleared including the house trailer and addition. Below are pictures of the action that you will enjoy.

More later, let me hear from you with questions/comments.

Construction Team - L to R, Pat Healy, Dave Johnson, Doug Bush and Greg Bugg

Cutting Off the Rotten Roof

Shored Up Walls

Tarp for Roof

Tarps in Place – Note Different Colors

All Cleaned Up!
