

Wire Weave Rings Class Description

Project Description:

Using a surprising jig, students will learn to weave their own 2, 3 and 4 hole spacer bars of wire. These spacer bars will then be fashioned stunning rings.

Short Description:

Using a surprising jig, students will learn to weave their own 2, 3 and 4 hole spacer bars of wire. These spacer bars will then be fashioned into stunning rings

Skill level required: All skill levels and ages welcome! No experience necessary, prior wirework is helpful.

Supplies (per earring or pendant):

- 10 feet 22 gauge wire – half hard sterling silver, gold filled, copper, niobium...
- 2 - 4 mm bicone Swarovski crystals
- jig

Tools:

- chain nose pliers
- diagonal wire cutters
- nylon jawed wire straightener

Time required for class: 2 - 3 hours

Most students will complete the ring in class
