72-YEAR CYCLE GENERATION

The purpose of this illustration is to examine if there is a possible direct correlation of 2 timelines when overlapped, given a 72-year and 40-year coefficient. The 1st timeline will be from the year the modern nation of Israel was born in 1948. This timeline would put the 72nd year, completed on May 14, 2020 or in the Jewish year of 5781.

Amazingly, Israel reached the 70th year time marker in 2018, 5779 as the 'Fig Tree Generation'. The hypothesis of this study seeks to examine if a 2nd timeline, that of Jesus Christ Himself is significant, prophetically perhaps. This study does suppose and will use the date of September 11, -3 BC as the probable date of Jesus' birthday based on the various astronomical alignments that occurred from -4 BC to -2BC, etc. Amazingly, the 2nd compounded timeline is already configured within this overlay. It is the 40-year time span from Jesus' death in April 14, 32 AD. This date is again supposed on various interpretations of which this study will go by. The question is then, could such an overlap of the respected timeframes suggest a synchronization and convergence of a 72-year marker? And if so, what does that look like and above all, what does that mean for the Followers of Jesus Christ in these Last Days or when the Church Age is to conclude.

PEGGED TO THE BIRTH AND DEATH OF JESUS CHRIST

prophetic Transitional Period of such a 40-year countdown from the 72nd year since 1948? This timeframe would be from 2020 to 2022.

Time of Testing 72 Hours in Grave

construction of the 3rd Temple. 1. ISRAEL TO CHURCH The question is, is it linked to 70 2. CHURCH TO ISRAEL

AD when the Sacrificial Order and Temple ceased or at the 72 year marker? Either way, there is a 2year window of discrepancy from 2020 to 2022.

Last Passover Lamb offered on Altar On 70th Year - 2018 1st lamb offered in new dedicated Altar of Sacrifice 2020. The 40th year corresponding to the 72nd year would end at 2022.

The point of this study is that it is that close; a matter of 1-2 years now perhaps. If it was and is from 1982 then that the 40 -year countdown is occurring, then the Church Age is presently at the tail end of such a count with only a 2-year window remaining perhaps.
