

A-Series Tower Stairs

- Heights to 100 feet with 12' tower stages
- Two Leg Tower Posts are 80" apart to create a 7' x 14' footprint
- Stair Flights are adjustable from 64", 72", and 80"
- Step Rise is 8" per step and landing elevations are adjustable in 8" increments
- Landing Platforms are 30" x 84" to allow 30" walking surfaces
- Bolt-together construction
- Requires minimal foundation
- Great for upgraded access to replace ladders and reduce fall risk associated with ladders

A-Series Tower Stairs

- For use beside new or existing bin or silo, flat storage building, or leg tower
- Configured with A-Series Walkway to access bins used as Seed Storage, Grain Hopper Storage, and Chain Loop Systems
