GUARANTEED FOREVER AGAINST BREAKAGE

Finest quality spring steel, tempered and drawn to the hardest possible yet not brittle hardness to hold a razor keen edge.

Fabrication — All Fleetwood Broadheads are spot welded in place then electrically welded by a process which makes the joint stronger than the metal itself. Guaranteed forever against the weld breaking.

Durability — These heads have been shot into bricks, heavy gauge metal, etc., from heavy hunting bows without so much as dulling the point; tests which would demolish most any other head ever produced. Size 1 1/8" x 2 3/8". Weight 125 grains. Made in two sizes 11/32" and 5/16". Please state size desired when ordering.
