

FOREVER IN MY MIND

By John Lipinski

I could say that I miss you and I just wanna kiss you
I wanna hold you close, and never let go
I can tell you the reasons, what makes it so pleasin'
Sharin' a life with you, and let the feelings show
I wanna see your face, smilin' back at me
As the candles flicker, in the afterglow
And fall asleep in my arms, knowin' that's where you wanna be
Secure in the honesty, that love can grow

I have seen, this dream, it's in my mind
Over and over, my favorite movie rewinds
And I will love you, till the end of time
Every night, forever in my mind

Alone on a mountainside, when the sun goes down
Lysin' next to you, it begins to snow
Just watchin' the sunset, any better, it doesn't get
Three logs in the fireplace, the embers glow
Half-empty bottle of wine, dew glistens, your skin shines
We'll make love for a second time, real slow
Won't bother or worry, can't be in no hurry
I've painted a masterpiece, this time, a Van Gogh

You're my dream, forever in my mind
You're the one, truly, one-of-a-kind
And I will love you, till the end of time
Every night, forever in my mind

You're in my dreams, forever in my mind
Always the one, that I can't leave behind
And I will love you, till the end of time
Every night, forever in my mind
