

# PENTECOST DOUBLE COUNT

The purpose of this illustration is to investigate the inferred 'double-count' of 49 days of YHVH's Feast, Shavuot, as that then determines Pentecost. Shavuot is not Pentecost. The Theory suggests that based on 1 Interpretation of Leviticus 23:16, there is a 'Mirrored' Count or a 'Double-Count' of 49 Days from the 49th Day Time Marker of the Feast of Weeks. This 'Missing' Link or Clue could be the Key in helping determine when is the 'Season' of the Resurrection and Rapture could occur based on another Key and Encrypted Indicator, inferred on the Day of Pentecost in Acts 2, 'When Pentecost Had Fully Come', etc. This infers that the Feast was in Progress, One suggests that True Pentecost is then to occur in the 4<sup>th</sup> Month of Tammuz in any given Year. The Menorah Typology, based on a Tree Typology of an Almond Tree suggests Pentecost corresponds to the 4<sup>th</sup> Month, the 4<sup>th</sup> Center Stem. Such imagery has a possible direct correlation as to where and when, that if the Resurrection and Rapture of the Bride of Christ is to take place on a Feast, based on this 'Double-Count' of the Feast of YHVH, Pentecost would most likely be it. This present 'Pentecostal Age' is about to conclude. The Church Age is that of the Gentiles being 'grafted-in' to Israel. Thus, the 99th Day would fall on Tammuz (Tamuz), which is in Phi Ratio of Time to the 360 Day-To-Degree Timeframe. Pentecost would occur in July. Now would or could this Day and Month determine the Rapture then? Consider the following Day Count for 2022.
