VPR CONSTRUCTION CORP is a General Construction Corporation established in 2012. Over the years, the firm has brought great value and professionalism to our clients, subcontractors, and engineers who have helped us develop and sustain partnerships. VPR Construction Corporation core of skilled professionals and engineers and subcontractors consistently provide top quality services at a competitive rate. The construction industry has adapted with a changing world and VPR understands in this growing market, our growth depends on our skillset to ensure we pay close attention to details which is demonstrated through our experience, work, and business relationships.

Woman and Minority Owned Business

Trisha Ramsaywack is the President of VPR Construction Corporation; she is a certified General Contractor, FDOT contractor, estimator and scheduler. Mrs. Ramsaywack contributes over seven years of construction knowledge and experience to the firm making the firm a woman and minority owned business, and illustrates exceptional leadership qualities as a business owner. Mrs. Ramsaywack is driven to make VPR Construction a woman and minority owned business a competitive force in the industry.

Experience

Each of our employees carries a significant amount of construction experience, ranging throughout the private sectors, municipalities, education facilities, county facilities, medical facilities, air and sea ports. From concept to completion, every step of a project is handled by our partners of engineers, architects, construction crew, and interior designers. VPR Construction contributes a wide array of construction experience. We're committed to providing you with the highest level of service, so you'll always choose us for your construction needs. We genuinely care about your project and your experience, and it will always show in our communication, our scheduling/ planning process, and in the quality of work we provide up until our final close out meeting. VPR Construction Corporation love what we do, which fuels our passion for your construction needs. Our team shows up to work enthusiastic and motivated to build your dreams into reality.
