The player will have five (5) minutes to make any required changes or risk being penalized for "Delay of Contest".

The competitor's legal age is the age that they are as of January 1st, of each year. Rank:

A competitor must compete at the highest belt level that they have attained in the martial arts. Once a competitor competes at a rank, they are not allowed to compete in lower ranking divisions. We also do not encourage a competitor to compete up in a higher level.

Definition of Rank:

The color of the belt may sometimes be confusing due to the fact that different systems of martial arts may use different colors of belt to represent ranking. We will always look to solve this issue. The tournament arbitrator will make decisions, if there is a complaint. The following is a basic format of most ranking systems.

Amount of UBB ranks of style/school	Rank split for 2 Divisions:		Rank split for 3 Divisions:			Rank split for 4 Divisions:

Majority of the judges must agree on the call of Excessive Contact. Automatic Disqualification if technique draws blood.

Head Contact:

Competitors may only use light or touch contact to side or forehead of head gear.

Out of Bounds:

Out of bounds is when neither foot is inside or touching the boundary line. Forced out of bounds as opposed to fighting out: No penalty for fighting out of bounds or being forced out of bounds, Players who step Out of Bounds without being engaged in attacking or defending will be considered "Out".

An Out of Bounds player cannot score on an In-Bounds player. There is no such thing as fighting out of bounds. It's the player's responsibility to know where he/she is at all times. If a player is in the ring and his competitor has even one foot out of bounds and scores before the officials call the break, the player outside the ring should be issued a warning for being outside the ring and the other player given the score for the technique landing before the officials called break. A player with one foot in-bounds will be considered "out" as soon as the in-bound

foot is lifted to either step or kick. Players “throwing” a jumping technique which causes neither foot to be “on the ground” must land in-bounds for the technique to be considered valid and scorable. An out of bounds player must first have one foot in-bounds before they can execute a valid, scorable technique.

Down players have 3 seconds to either “stand” or defend before play is stopped. Both players have three seconds to score to any legal target when either player is down. The four (4)-inch rule is also applicable.

Scoring on or by a Down Player: During the 3 second rule, a “Down” player may score to any legal target on the “Standing” player using any legal, controlled technique. A “Standing” player can score on a “Down” player using any legal, controlled technique. with the exception of No Kicking Motions to the Head of a “Down” player and No Contact to the Head of a “Down” player is allowed. When either player is down, the (3 second rule) is in effect.

Sweeps:

Controlled Techniques Only. If a player has swept his/her opponent, the strike technique must be immediate to their opponent (Three (3) second rule applies).

Penalty:

Kicking Motions to the Head of a “Down” player and any Contact to the Head of a “Down” player is illegal and the offending player’s penalty can be solely determined by the center referee.

Protests

Who Can Protest:

A protest can be brought forth by a player or a player's coach. All coaches must purchase a Coach's Identification in order to coach and/or protest. A parent cannot act as a coach unless the parent has purchased a Coach's Identification during registration. Protests should be made immediately to the referee in a respectful manner by the competitor's coach or competitor. If the Center Referee is qualified and educated on the rules, he/she can make the call ring side. The Center Referee should be able to consult the arbitrator. Since most protests are of an opinionated point of view, Officials sometimes make mistakes. Protests concerning a match must be made at the conclusion of the match and not once the next match has begun. A Player, Coach, or Instructor may request an official be replaced if they feel the official is not perceived as "fair". Protests must first be brought to the Center Referee's attention and if warranted the Arbitrator may be requested.

Filing a Protest:

All protests regarding rule violations must be brought to the attention of the Center Referee, who must get the arbitrator without question. The player cannot be penalized if the arbitrator is not readily available. Requesting the arbitrator may be done by the player or player's coach only after scores, points, or penalties pertaining to the arbitration have been awarded, but before the next match has started. After the winners are declared the player has no right to arbitration, except for scoring errors where the scores were not disclosed previously. All protests regarding proper rank for the division in which a player competing must be made before the order of performance is chosen.

Supporting Violation with Rulebook and Video:

It is the player's responsibility to know the rules and penalties. The contesting player will be given two (2) minutes by the arbitrator to find evidence in the applicable rulebook to support their protest. If the protesting player or coach cannot find evidence in the rules in the allotted time then their protest shall become null and void unless the arbitrator further processes the protest on his own. Along with evidence of a rule violation submitted from the rulebook, the player may submit videotape as evidence of a rule's violation. A judgement call can be protested.

Rules Procedural Error:

Protest of a rules procedural error which is agreed upon as a procedural error by the arbitrator requires the division to stop using the error. Once the error is caught, it must be corrected with the proper procedure immediately. The division should not be restarted, however the arbitrator has the authority and option to readjust the present situation, match or

performance, to make it as fair as possible before continuing and has the option of restarting the match or performance, if deemed necessary. A procedural error that was allowed at a tournament and not discovered or corrected by that tournament arbitrator does not set a precedent for the same procedural error to be allowed in other divisions or tournaments.

Judging or the Removal of Judges:

A player or coach may ask the arbitrator to scrutinize any judge for possible removal. A player or coach may request to have one or more judges (including center referee) removed from the division from the onset. This protest should be made prior to choosing the order of the competition). Removal of judges is at the discretion of the arbitrator based on facts presented by the player or coach, judge, or any chief referee. Officials from the same school should not be used. Two or more officials from the same schools are more likely to have the same "school of thought". This could result in an unfair advantage or disadvantage. The Center Referee can replace judges as needed.

Preselected Referees:

Preselected Referees cannot be removed.

Scoring Protest:

Flip cards and/or scoreboards take precedence over tabulation of the scorekeeper. The Center Referee has the final decision on the score. Center Referees may consult the corner judges to render a decision.

Code of Conduct:

All attendees must agree to and are expected to conduct themselves honorably by acting in a courteous and respectful manner to all others in attendance, including the property and the community.

Breaching this Code of Conduct may result in player penalties, including disqualification and possible expulsion from both the tournament and property.
