

Spring Creek RV Park provides wireless internet for our Guests through **Tengo Internet**. When you check in you will be given access information for your stay. Our free internet is very robust and you will have access to normal internet surfing like email, banking, Facebook and other social media platforms.

If you have more bandwidth needs (i.e. Netflix, Youtube, etc) you may purchase additional internet bandwidth at the rate of:

\$4.95 -- 24 Hours

\$14.95 --7 days

\$29.95 -- Monthly

If you have a Smart TV or other "Browserless Device" (router, BluRay player, etc) that you wish to connect to the internet, you must be on a "Paid" plan. You must provide the MAC address to the Billing Office for each browserless device you wish to connect to our internet. Tengo will show up on your device, but it will NOT connect without a MAC address manually input in the network.

\*\*\*Please note that some older Smart TV's cannot connect to the internet. Sometimes the internal "wireless card" is not strong enough to capture a wireless signal. We will allow you to "try before you buy" in such cases.
