

KEY TO OUR FUTURE

Today we have some of the smartest and creative youth that has ever been known to mankind. From science and technology to entertainment and literature, our youth have blazed trails that had not been explored before. Unfortunately we are only scratching the surface of such amazing talent. Our goal and purpose is to ask our young people, What If? Then we let their creative juices flow!!!

What if you could change, improve, or become an influence in areas of your life that are important to you? What if you could have a positive impact on people around you, while fulfilling your own goals? What if you could apply a simple, effective tool to every situation, and have a better outcome? Would you do it? If someone asked you how to do it, could you tell them? Just A.S.K. is the result of an eye opening, world changing collaboration between Breanne E. Brooks and her father Rodney D. Brooks. This simple yet profound process allows individuals to begin asking the right questions, seeking the answers and utilizing resources. Most of all, it encourages people to accurately assess and believe in their abilities. Just A.S.K. is a particular valuable tool to teach self-confidence and critical thinking skills to young people who are looking for reliable, practical guidance as they step out in the wider world.
