

**AMI Power Products, Inc.**

**CSB-X5**

**CSB-X9**

Cable Support Brackets are made for use in manholes, splice boxes and vaults. These fiber reinforced polymer brackets are:

- Molded from strong, glass-reinforced Nylon 6/6.
- Non-corrosive for long-term durability.
- Non-conductive. No grounding is required.
- Can be simply mounted directly to the enclosure wall with ½' bolt.
- Cables can be secured to the brackets using Nylon cable ties.
- Holds a distributed weight of 300 lbs.

Part Number	Length	Description
CSB- X5	5 Inches	Reinforced Nylon with ½" Mounting Hole
CSB-X9	9 Inches	Reinforced Nylon with ½" Mounting Hole
