

Achieve & Maintain Compliance with the SDWA

FREE Workshop for Small Systems

RCAP/AWWA is offering a **FREE** one-day workshop on compliance with the **Safe Drinking Water Act (SDWA)** and steps to avoid costly violations. This workshop is made possible by funding through the USEPA and AWWA's partner, the Rural Community Assistance Partnership. Priority seating will be given to Small System Representative (<10,000 persons served).

December 17th 2019

7:30am sign-in

Easton VFD, Easton, MD

315 Leonard Rieck Drive

(Formerly 315 Aurora Park Drive)

Easton, MD 21601

Workshop from 8am – 4:30pm

Lunch will be provided

The Workshop will cover the following topics:

- Disinfection, and Disinfection Byproducts (DBPs)
- Distribution System and Water Quality
- Water Quality Monitoring: Hands-On Learning Lab

Who Should Attend?

Operators, Superintendents, and Managers of Small Drinking Water Systems

Continuing Education Units

The workshop is being submitted to MDE for 7.5 hours of continuing education, including up to 3.5 hours of process training. A test will be administered for additional credit.

Register On-Line!

You can register for this event online, through our website www.csawwa.org.

For more information, contact Rachel Ellis: info@csawwa.org, 443.924.1032

Attend this workshop, and you will be able to:

- Discuss the purpose and types of disinfection
- Discuss the basics of chlorination and chloramination
- Understand factors that impact DBP formation
- Understand how to optimize your existing water treatment plant and distribution system
- Describe treatment strategies to address DBP formation
- Describe components of the distribution system, and how they can impact water quality
- Describe areas of water quality concern in your system, and ways to improve them
- Describe what different water quality parameters tell us about distribution system health
- Describe and apply key practices for managing water age and quality during storage
- Use proper protocols and techniques to collect water quality samples
- Interpret water quality sample results
- Determine appropriate follow-up, based on water quality challenges

This program is being offered as a collaboration between RCAP and AWWA. The local section representatives from these organizations are responsible to promote and deliver this training, and look forward to seeing you there!
