**FDV Communications & Security, Inc.** was founded in 2001 by John Rodriguez. FDV is an integral part of the construction force in the world of technology infrastructures. John is a license contractor in Florida & Georgia, and an active member of the National Fire Prevention Assoc (NFPA). FDV specializes in all areas of the IT domain from structured cabling, WIFI, CCTV, to testing and auditing. We believe in providing project management and installations to all customers regardless of size or vertical. Our engineers are qualified in all relevant fields and offer high level technical ability with jargon free explanations of all site works from concept to completion. FDV has a passion for technology, and we take full responsibility for our installations past, present and future.

### CORE COMPETENCIES

#### Indoor DAS (Distributed Antenna System):

- Public Safety-First Responders (VHF, 700 & 800 MHZ)
- Public Safety Annual Compliance Grid Testing & AHJ Submittals
- Cellular Wireless (LTE, AWS LTE, PCS WCDMA, SMR CDMA)
- Design, Plan & Engineering Services
- RF Cable Sweep Testing & troubleshooting
- System Commissioning & Maintenance contract

#### Voice, Data, Audio, Video & Security:

- Structured Cabling Infrastructures
- Indoor Fiber Optic Cable Installation, Termination/Splicing
- Data Center & Telecom Room Buildouts
- Voice & Data Networks Systems Migration
- Audio, CCTV Security & Access Control Installations

#### OSP (Outside Plant) Utility Services:

- Directional Bore
- HDPE SDR 11 Conduit placement
- Precast Polymer Concrete Pull Box & Hand hole installation
- Fiber Optic Cable placement & Splicing

### PAST PERFORMANCES

SLS LUX - Miami, FL  
Park Grove - Coconut Grove, FL  
Broadstone Gulch - Nashville, TN  
Privé Island Estates - Aventura, FL  
Celebration Senior Living - Orlando, FL  
Crescent Riverwalk - Tampa, FL  
Brightline - West Palm Beach, FL  
The One - St. Petersburg, FL  
Harbor Park Apartments - Ft. Lauderdale, FL  
Modera Central - Orlando, FL

### DIFFERENTIATORS

" It is a great pleasure to be part of the construction force, that is building a faster and better technology infrastructure where Public Safety first responders and millions of people can clearly and effectively communicate, while focusing our main goals to achieve all objectives and provide superb customer satisfaction".

### Our Mission:

To be an integral part of the construction force that thrives for better and faster technologies via complex distribution fiber optics and wireless transmission
