

10-Hour OSHA General Industry Safety & Health Training Course

Instructor

Jim J. Brandt, CSP, CHST, CET - Industrial Hygiene Professionals, Inc.

Benefits

Lectures, video presentations, classroom exercises and in-depth discussions provide students with a comprehensive overview the OSHA general industry regulations (29 CFR Part 1910). Students are introduced to OSHA policies and procedures as well as general safety and health principles necessary for a safe work environment.

Who Should Attend

This course is intended to provide entry level general industry workers information about their rights, employer responsibilities, as well as how to identify, abate, avoid and prevent job related hazards while on the job. The training covers a variety of general industry safety and health hazards which a worker may encounter.
