COVID-19. Coronavirus disease 2019 ("COVID-19") has been declared a worldwide pandemic by the World Health Organization. Per the Centers for Disease Control and Prevention ("CDC"), the virus that causes COVID-19 is thought to spread from person-to-person contact, mainly through respiratory droplets produced when an infected person coughs, sneezes or talks. COVID-19 may also spread by contact with contaminated surfaces and objects or in the air. People may be infected and show no symptoms but still spread the disease. COVID-19 seems to be spreading easily and sustainably in the community ("community spread") in many areas. Community spread means people have been infected with the virus in an area, including some who are not sure how or where they became infected. Currently, there is no known treatment, cure, or vaccine for COVID-19. COVID-19 may cause serious and potentially life-threatening illness and even death.

I hereby choose to accept the risk of contracting COVID-19 for myself and/or my children to utilize Tri-State Travel's services and enter Tri-State Travel's premises, including motorcoaches.
