Hear What Other Healthcare Providers Shared After Attending The Workshop

"I have been frustrated with the entire claim process. I always assumed insurance companies had all the power and I had to jump through hoops, except the "hoops" kept being moved. I now feel so empowered!" J. Moyano Orlando FL -

"I wanted to let you know a breakthrough that we have discovered as the result of using strategies and information obtained from your seminar. We have noticed that ALL of our claims from one particular major carrier is now allowing at 100% of charges with no appeals or extra work. I guess we earned our first "VIP" status!" – J. Bailey, Surgery Center Oxford, AL

Attending Karlene's seminar was just the life raft our practice needed to reclaim money due to our physician. I attended the seminar in May and in June used her method on a denied BCBS surgical claim due to no precert for a new patient we picked up in the hospital while being on call. BCBS does not allow us to obtain a precert in this situation. My appeal letter quoted insurance laws Karlene provides in her class. We were paid. The first appeal with claim payment more than paid for the cost of the class, my CFO is pleased. G. Urik, Macon, GA

"Based on strategies and CMS guidelines received at your seminar, we responded to a Medicaid Carrier's request for audit of Medical Records with a list of our rights. Apparently the carrier needed the records ...They kept saying they couldn't pay the money (one of our rights) and we said sorry no records.... We got a check today!! Awesome to make them do for me for once!! L. Jones, MD Primary Care Practice Crossville, TN
