To get started you must have minimum of 350,000 in Net Worth of which 150,000 should be in Liquid Funds. We will need proof via a bank statement, bank letter of credit, etc.

Qualified Candidates should have a passion for food and preferably a background managing or owning a restaurant.

Our goal is to expand our brand. This could be a win win situation for both of us. Once we verify funds, next step is to sign our non-disclosure agreement. Then we will open our books for you and your accountant to verify our profitability and you can measure if this is a good fit for you. Call me or send me an email so we can make an appointment to sit down and go over all the details.

If you want to have a profitable Willies restaurant of your own, where you are the boss. Our system and concept is a proven winner. This is not a Franchise but a Licensing Agreement. No Royalties to be paid at all. Call us now..!!
