

Thank you Dr. Sanders and staff (Michelle). For years my ears would ring, whistle, vibrate, etc, all the time. Add migraines too! My equilibrium was tilted left. All of this complicated my life. I honestly could not complete daily life and had to cancel many functions, also had trouble working. I believe in divine healing, I know God can use physicians to heal as well. I have found healing from Dr. Sanders. God bless you always. Staff friendly, efficient, make all feel special. Thanks again!
